Mr. Hammons offered the following resolution, viz.:

H. Res. 45. BE IT RESOLVED by the General Assembly of the Commonwealth of Kentucky, now in regular session:

1. That it is the sense of the General Assembly of the Commonwealth of Kentucky, that there exists and has existed for several years of the immediate past the necessity of making adequate survey of sections of the Cumberland River lying within and immediately near to the corporate limits of the cities of Harlan, Middlesboro, Pineville and Barbourville, in Harlan, Bell and Knox Counties, Kentucky, and certain affected portions of said cities and certain of the outlying contiguous territory, all constantly menaced by and subject to damage caused by overflows and inundations by the waters

of said river in times of tides, and, that, in order to prevent such overflows and inundations of said river and Yellow Creek, to thereby save the people and their property in the said cities and those of said outlying contiguous sections of unbearable damage consequent upon said waters inundations, and that there should be appropriated by the Congress of the United States a sufficient sum of money out of the Treasury of the United States to remedy said deplorable situation, and

2. Whereas, portions of said cities are situate on both sides of said Cumberland River and Yellow Creek, at or near to a marked and acute bend in the river and creeks, thereby causing the river and creeks in times of its tides, to overflow the banks and inundate sections of said cities and immediately outlying sections and causing the damage aforesaid. These affected sections embrace the homes of many families and the business enterprises and farm lands and homes of many of the citizens who are and always have been loyal to the government of the United States of America. They are industrious but poor in a financial sense and by their efforts and contributions along with others of said cities they have erected splendid schools and churches within said cities. Many of these people and their wives and children have often been driven from their homes by said tides to seek temporary places to stay until the water subsided, when they return to their homes and find them filled with mud and other refuse caused by the ravages of the river and creeks, and,

3. Whereas, the hills and valleys lying and sloping from the mountains of Tennessee and within the river watershed above said cities, have been in the recent past, largely denuded of the forests and that of itself has, it is believed, contributed to the frequency of the tides and increased volume thereof. So that the affected sections and people mentioned are in well-nigh constant dread of the devastating angry waters. The people of the said sections are absolutely

unable to financially and otherwise relieve the situation and relief of same is a public necessity.

4. *Now, Therefore Be It Further Resolved* that the Kentucky Senators and Representatives in Congress be and they are hereby requested to exercise their utmost endeavors in securing from our Federal Government the enactment of a statute directing an early survey of the premises aforesaid and the appropriation of a sufficient sum of money to remedy the situation aforesaid by having constructed such canal or spillway at the proper place near said cities necessary to divert sufficient portions of the waters of the Cumberland River and Yellow Creek, in time of tides, to prevent the damaging overflows and inundations aforesaid.

Said resolution was adopted.

Mr. Denny P. Smith offered the following resolution, viz.:

H. Res. 46. Whereas, the General Assembly of Kentucky, pursuant to recommendations of the Governor of the Commonwealth, enacted a law to permit banks to qualify for deposit of State's moneys by putting up with the State Treasurer government bonds and State warrants, and

Whereas, the bill which the General Assembly passed also permits the banks to deposit "other securities," and

Whereas, the deposit of stocks and bonds, personal notes or mortgages on land and personal property might be of doubtful value, and

Whereas the State might lose millions of dollars if this new law stands unchanged, and

Whereas, this General Assembly desires to protect the State funds accruing from the taxpayer, therefore

Be It Resolved by the House of Representatives that the State Treasurer of the Commonwealth be requested and directed to forthwith disclose to this House the full nature of all actions he has taken under this bill, giving the names

of all banks in which he has placed deposits under this bill. the amount of money deposited in each bank and an itemized list showing the types of securities accepted from each bank and the value at which he accepted the various items.

The Clerk of this House is directed to transmit this resolution to the Treasurer immediately upon its passage by the House.

Said resolution was adopted.

Mr. Sebastian offered the following resolution, viz.:

H. Res. 47. Whereas, a bill passed by the General Assembly which permits the banks of the State to deposit with the State Treasurer as surety for State deposits State warrants "or other securities," and

Whereas this grant of power is broader than was recommended by Governor Ruby Laffoon, who urged that the banks be permitted to deposit government bonds and State warrants, and

Whereas it may be to the best interest of the State that a new law be passed limiting the deposits to the idea expressed by Governor Laffoon, and

Whereas, the bill carried an emergency clause which read "An emergency is hereby declared to exist and this Act shall take effect upon its passage and approval by the Governor," and

Whereas the Court of Appeals in *McIntyre v. Commonwealth*, 221 Kentucky, page 16, held that a similar emergency clause was not sufficient because it did not state the reasons for the emergency, now therefore

Be It Resolved that this House request the Attorney General to give it an opinion as to whether the State Treasurer can accept deposits of securities under the bill at this time in view of the Court's decision in the *McIntyre* case and subsequent opinions of the Court.

The Clerk of the House is directed to transmit this request for an opinion to the Attorney General upon its passage by the House.

Said resolution was adopted.

H. B. 347. (For title see Journal of today ante.)

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. Every person, firm, association or corporation who after the effective date of this act, shall seek to procure, bid upon, or offer to bid upon any contract with the State Highway Commission of Kentucky for the construction or maintenance of any public highway or any section thereof, or any bridge or bridge approach, shall before submitting any bid to obtain such contract apply for and procure a certificate of

eligibility and qualification and pay the license fee as herein-after provided. All applications for certificate of eligibility shall be made to the State Highway Commission in writing, shall lie over for a period of thirty (30) days from the date of filing before same shall be acted upon, and shall be accompanied by a fee for \$250.00 to cover payment of the license tax provided for in section four hereof. In the event that a certificate of eligibility is not granted to the applicant, then said sum shall be returned to him.

§ 2. The sole power and authority to determine who shall be eligible to bid upon any contract with the State Highway Commission for the construction or maintenance of any public highway or section thereof, or any bridge or bridge approach, shall be and is hereby vested in the State Highway Commission of Kentucky. Said commission is hereby authorized and empowered to adopt such means and make such investigations as may be necessary to determine the financial standing, experience, responsibility, business ability, previous record, sufficiency of plant and equipment, and all other pertinent facts and information necessary for said Highway Commission to determine the eligibility of any proposed bidder. Said Highway Commission shall promulgate and establish rules and regulations governing the application for the certificate of eligibility, the means and methods of obtaining information concerning the applicant, and the granting of, or refusal to grant, a certificate of eligibility, and to this end may require a financial statement of applicants so often as necessary and at least once every twelve months verified by the applicant, or if a corporation by the chief official thereof. Said commission may employ agents to make investigations of any charges, facts, or circumstances bearing upon the fitness or qualification, of any applicant for a certificate of eligibility hereunder, and it shall fix the compensation of such agent or agents, same to be paid out of the funds derived from the license fee, provided for in section four of this act.

After obtaining such information as it may deem neces-

sary concerning the fitness and qualification of any applicant under this section, the State Highway Commission shall proceed to summarily determine whether or not said applicant is eligible to bid upon highway contracts within the meaning of this section, and the decision of said commission shall be final. In the event that said commission shall determine that an applicant is eligible within the meaning of this act, said commission shall forthwith issue to said applicant a certificate of eligibility which certificate shall entitle the holder thereof to bid upon any and all such contracts with the State Highway Commission for the construction of maintenance of any public highway or section thereof, or bridge or bridge approach, but said commission shall have the power and authority to limit the scope of such certificate of eligibility as to the number of contracts that the contractor may bid upon, and to fix the highest amount of contract they shall be eligible to bid upon, unless and until said certificate of eligibility shall be revoked or canceled by said State Highway Commission as provided for in Section 3 hereof.

In the event that said Highway Commission shall determine that any applicant hereunder is ineligible to bid as herein provided, said commission shall reject such application and refuse to issue a certificate of eligibility, and said applicant shall not thereafter be entitled to make any application for a certificate of eligibility until a lapse of six months from the date of said rejection, provided, however, that a certificate of eligibility shall not be refused to any applicant upon the sole ground of residence or nationality.

§ 3. A certificate of eligibility granted to any person, firm, association or corporation under this act may be revoked or canceled at any time by the State Highway Commission if, in the opinion of said State Highway Commission, any change in the financial status, responsibility or adequacy of plant and equipment renders said person, firm, association or corporation ineligible. In the event the certificate of eligibility of any person, firm, association or corporation shall be

revoked or canceled, then and in that event, said Highway Commission shall refund to said person, firm, association or corporation so many twelfths of the license fee as there are months remaining unexpired in the year of which the license fee is paid.

§ 4. In order to provide for the expense of carrying out the provisions of this act, and to make the necessary investigations as to the eligibility of proposed bidders, every person, firm, association or corporation who applies for, and is granted, a certificate of eligibility as provided for herein, shall pay to the State Highway Commission an annual license fee or tax of two hundred and fifty (\$250.00) dollars, same to be payable on January 1st of each year and said license to expire on December 31st of each year. Said fund shall be used by said commission to defray the expense necessary to carry out the provisions of this act, and at the end of each fiscal year, any unexpended balance remaining in said fund shall be paid into the State Treasury of Kentucky and credited to the general fund.

§ 5. All laws and parts of laws in conflict herewith, are hereby repealed to the extent of such conflict.

§ 6. If any provision of this act be held to be invalid or unconstitutional such fact shall not affect any other provisions of this act, it being the intention of the General Assembly that in enacting this act to enact each provision separately; and if any provision or exception contained in any particular provision of this act shall be held invalid or unconstitutional, said fact shall not affect the remaining portion of this act, it being the intention of the General Assembly to enact each provision of this act and each proviso and each exception thereto, separately.

§ 7. Whereas, many contracts for construction of state highways and sections thereof are about to be let, and

Whereas, it is to the best interest of the Commonwealth that only qualified and responsible bidders procure contracts to construct said highway.

Now therefore, an emergency is hereby declared to exist and this bill shall take effect from and after its passage and approval by the Governor.

Mr. Munford moved that said bill be laid on the table.

Said motion was agreed to.

And so said bill was rejected.

The hour of two-fifteen o'clock p. m. having arrived, that being the hour for the execution of the Special Order of the Day, the House took up for consideration, said Special Order, to-wit:

H. B. 164. An Act to create a State Board of Probation; to define its powers and duties; and to provide for the appointment and compensation of the State Director of Probation.

Mr. Gnau moved that said bill be laid on the clerk's desk.

Said motion was agreed to.

The House took up for consideration from the Orders of the Day, a bill entitled:

H. B. 59. An Act to amend Section one thousand, one hundred and twelve of Carroll's Kentucky Statutes, providing for removals on change of venue in certain criminal cases from one county to another, and for the payment of the costs on such removals, and upon the trials after such removals are had.

With a committee amendment thereto by way of substitute therefor.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

That section one thousand, one hundred and twelve of Carroll's Kentucky Statutes, be amended by erasing and eliminating from the first subsection thereof the concluding words "and the fiscal court of the county from which such removal is made shall allow and pay the costs thereof from the county levy," and by inserting in said subsection 1 of said section in lieu of said words the following, to-wit: "and the fiscal court of the county from which such removal is made shall allow and pay all costs of the removal, and all other costs which otherwise would have been allowable and payable against it had the trial been held in said county from which the removal was had, just in the same way and to the same extent as though said removal had never been made"; so that said section as amended is re-enacted and shall read as follows:

"Sec. 1112. Removal from county in state of lawlessness; expense paid by county.

(1) Whenever any circuit judge shall be satisfied from his own knowledge and from the written statement of the Commonwealth's attorney of that district that such a state of lawlessness exists in any county of this Commonwealth or that he be so satisfied that a high state of excitement or feeling of prejudice exists therein against the defendant that there is apparent danger of mob violence wherein loss of life or destruction of property may occur unlawfully that a trial in such county cannot be fairly and impartially had or that the officers of the court will be prevented from discharging their duty or that the jurors may be intimidated or deterred from fairly and impartially rendering a verdict in the case he may order the prosecution removed to some other county in which a fair trial can be had; and the fiscal court of the county from which such removal is made shall allow and pay all costs of the removal, and all other costs which otherwise

would have been allowable and payable against it had the trial been held in said county from which the removal was had, just in the same way and to the same extent as though said removal had never been made.

(2) A change of venue may be had to some other county when the facts exist as set out in section one of this act on the motion of the defendant by counsel and his presence in court waived when the written statement of his counsel is filed in such case and the affidavit of the defendant filed therein that he is in danger of mob violence in such county and for that reason desires that a change of venue be had to some other county and that he therein waives his presence on the hearing of a motion for a change of venue.

Because of the many changes of venue being made in criminal proceedings from certain counties of the Commonwealth to other counties, and because of the unfairness in requiring the counties to which such changes of venue are made to bear the costs burdens of the counties where the causes of the prosecutions occur, an emergency is hereby declared to exist, and this act shall be in effect on and after its passage and approval by the Governor, or upon the elapsing of ten days after its formal passage, provided the Governor shall not have approved or disapproved the same within said ten days.

Said substitute is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

That Section one thousand, one hundred and twelve of Carroll's 1930 Kentucky Statutes be amended and re-enacted by erasing and eliminating from the first subsection thereof the concluding words, "and the fiscal court of the county from which such removal is made shall allow any pay the costs thereof from the county levy," so that said section as amended is re-enacted and shall read as follows:

“Sec. 1112. Removal from county in state of lawlessness; expense paid by county —

(1) Whenever any circuit judge shall be satisfied from his own knowledge and from the written statement of the Commonwealth's attorney of that district that such a state of lawlessness exists in any county of this Commonwealth or that he be so satisfied that a high state of excitement or feeling of prejudice exists therein against the defendant. that there is apparent danger of mob violence wherein loss of life or destruction of property may occur unlawfully that a trial in such county can not be fairly and impartially had, or that the officers of the court will be prevented from discharging their duty or that the jurors may be intimidated or deterred from fairly and impartially rendering a verdict in the case, he may order the prosecution removed to some other county in which a fair trial can be had.

(2) A change of venue may be had to some other county when the facts exist as set out in section one of this act on the motion of the defendant by counsel and his presence in court waived when the written statement of his counsel is filed in such case and the affidavit of the defendant filed therein that he is in danger of mob violence in such county and for that reason desires that a change of venue be had to some other county and that he therein waives his presence on the hearing of a motion for a change of venue.

Because of the many changes of venue being made in criminal proceedings from certain counties of the Commonwealth to other counties, and because of the unfairness in requiring the counties to which such changes of venue are made to bear the costs burdens of the counties where the causes of the prosecutions occur, an emergency is hereby declared to exist, and this act shall be in effect on and after its passage and approved by the Governor, or upon the elapsing of ten days after its formal passage, provided the Governor shall not have approved or disapproved the same within said ten days.

Mr. Renick moved the previous question.

Thereupon the Speaker announced "Shall the main question be now put?"

Which was decided in the affirmative.

Said substitute was then adopted.

Ordered that said bill be engrossed and read the third time.

Resolved that the title thereof be as amended.

Mr. Renick moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said last named motion was agreed to.

The House took up for consideration from the Orders of the Day, a bill entitled:

H. B. 57. An Act to amend and re-enact Section one thousand, one hundred nineteen of Kentucky Statutes, providing for the payment of costs on changes of venue in criminal cases granted on the application of the Commonwealth, providing that all the costs which would be borne by the county had the removal not been made, shall notwithstanding the removal be borne by said county from which the removal is made.

With a Committee amendment thereto by way of Substitute therefor.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

That Section one thousand, one hundred and nineteen of

Carroll's Kentucky Statutes be amended by striking therefrom the words "all the costs of the removal shall be paid by the county from which the removal is had, in the same manner as other claims against the county are paid," and by inserting in said section in lieu thereof the words, "all the costs, both of the removal, and the trial otherwise properly payable by the county from which the removal is had, shall be paid by the county from which the removal is had, just as if the said removal had never been had"; so that said section when amended shall read:

"Sec. 1119. Removal at instance of Commonwealth; costs to be paid by county. If the change of venue is granted to or on the application of the Commonwealth, all the costs, both of the removal, and the trial otherwise properly payable by the county from which the removal is had, shall be paid by the county from which the removal is had, just as if the said removal had never been had.

Because of the many changes of venue being made in criminal proceedings from certain counties of the Commonwealth to other counties, and because of the unfairness in requiring the counties to which such changes of venue are made to bear the costs burdens of the counties where the causes of the prosecution occur, an emergency is hereby declared to exist, and this act shall be in effect on and after its passage and approval by the Governor, or upon the elapsing of ten days after its formal passage, provided the Governor shall not have approved or disapproved the same within said ten days.

Said substitute is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

That section one thousand, one hundred and nineteen of Carroll's 1930 Kentucky Statutes be amended and re-enacted by striking therefrom the words, "the application of the Commonwealth all the costs of the removal shall be paid by the

county from which the removal is had, in the same manner as other claims against the county from which the removal is had, in the same manner as other claims against the county are paid," and by inserting in said section in lieu thereof, the words, "either party all the costs, both of removal, and the trial otherwise properly payable by the county from which the removal is had, shall be paid by the county from which the removal is had, just as if the said removal had never been had"; so that said section when amended shall read:

"Sec. 1119. Removal at Instance of Commonwealth; Costs to be Paid by County.—If the change of venue is granted to or on the application of either party, all costs, both of the removal, and the trial otherwise properly payable by the county from which the removal is had, shall be paid by the county from which the removal is had, just as if the said removal had never been had.

Because of the many changes of venue being made in criminal proceedings from certain counties of the Commonwealth to other counties, and because of the unfairness in requiring the counties to which such changes of venue are made to bear the costs burdens of the counties where the cause of the prosecutions occur, an emergency is hereby declared to exist, and this act shall be in effect on and after its passage and approval by the Governor, or upon the elapsing of ten days after its formal passage, provided the Governor shall not have approved or disapproved the same within said ten days.

officer, or private soldier or sailor who deserted or was dishonorably discharged, shall not be entitled to the benefits of this act unless he be re-enlisted or returned to the service in the Confederate army and served until the close of the war or until he was honorably discharged or was prevented from so serving by wounds received or disease contracted in line of duty which rendered him unable to perform further military service."

until honorably discharged; and provided, further, that any officer, or private soldier or sailor who deserted or was dishonorably discharged, shall not be entitled to the benefits of this act unless he be re-enlisted or returned to the service in the Confederate army, and served until the close of the war or until he was honorably discharged or was prevented from so serving by wounds received or disease contracted in line of duty which rendered him unable to perform further military service.”

Mr. Baldridge offered the following amendment to said bill, viz.:

Amend H. B. 87 by adding an emergency clause as follows, viz.:

Whereas there are many old Confederate soldiers at the present time who are destitute and have nothing upon which to live, an emergency is hereby declared to exist and this Act shall take effect immediately upon and after its passage.

Said amendment was agreed to.

Ordered that said bill be engrossed and read the third time.

The Constitutional provision as to the third reading of said bill at length being dispensed with and the same being engrossed, said bill was read the third time by its title only and passed.

The yeas and nays being taken thereon in accordance with the provisions of the Constitution, were as follows, viz.:

Mr. Baldridge offered the following amendment to the title of said bill, viz.:

Amend the title to H. B. 87 by adding thereto "And declaring an emergency."

Said amendment was agreed to.

Resolved that the title thereof be as amended.

Mr. Baldridge moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said last named motion was agreed to.

The House took up for consideration from the Orders of the Day, a bill entitled:

H. B. 102. An Act to further amend an Act entitled An Act for the government of cities of the second class in the Commonwealth of Kentucky, which was approved March 19, 1894, and thereafter in due course became a law and as same has since been amended, all of which said act and amendments now appear as Article 3 of Chapter 89, Kentucky Statutes.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION I.

That an act entitled "An Act for the government of cities of the second class in the Commonwealth of Kentucky" which was approved March 19th, 1894, and thereafter in due course became a law and as same has since been amended, all of which act and amendments now appear as Article 3 of Chapter 89 of the Kentucky Statutes, be and the same is hereby amended by adding thereto the following:

A.

Any city of the second class under the laws of the Commonwealth of Kentucky may become organized and be governed **under the provisions of this act by proceeding as hereinafter provided.** Organizing under this act shall not change the corporation entity of any such city and all laws applicable to and governing cities of the second class and not inconsistent to the provisions of this act shall continue to apply to and govern every city that may organize under this act. All by-laws, ordinances and resolutions in force in any such city and not inconsistent with the provisions of this act shall continue

to be in force until altered or repealed in manner provided for herein.

B.

It shall be the duty of the County Judge in the county in which is located the city proposing to take the sense of its voters as herein provided upon the question of organizing and being governed under this act, by the application of written petition signed by a number of the legal voters of said city equal to 25% of the votes cast in said city at the last preceding general election, to receive said petition and at the next regular term thereafter to make an order on his order book directing an election to be held in said city at the next regular election and not earlier than sixty days after said application is lodged with the said Judge, which order shall direct the sheriff or other officer of said county who may be appointed, to hold said election, to open the polls at each and all of the voting places in said city for the purpose of taking the sense of the qualified voters of said city upon the question as to whether or not the citizens in said city are in favor of the organization and government of said city under the provisions of this act. The question to be submitted to the voters shall be—"Are you in favor of the organization and government of the city of (naming the city in which said vote is to be taken) under the provisions of an act entitled 'An Act to further amend an act entitled "An Act for the government of cities of second class in the Commonwealth of Kentucky" which was approved March 19th, 1894, and thereafter in due course became a law and as same has since been amended, all of which said act and amendments now appear as Article 3 of Chapter 89, Kentucky Statutes, which was adopted by the General Assembly of the Commonwealth of Kentucky at the session of 1932?' "

It shall be the duty of the county clerk to give to the sheriff of the county, or to such officer as may be appointed to hold said election, a certified copy of the order of the county

court as it appears on the order book, within five days after such order is made; and it shall be the duty of said sheriff or other such officer to have said order published in some daily or weekly newspaper published or circulated in said county for at least two weeks before the election and also to advertise the same by printed or written notice posted in conspicuous places in said city for the same length of time. If there is no daily or weekly newspaper published in said city or if the proprietor of said paper refuses to publish such notices, the printed or written hand bills provided for shall be sufficient notice. The sheriff or other such officer shall have the advertisement and notices herein provided for posted as herein required within seven days after he receives the order of the county court aforesaid. All elections provided for in this act, except the primary elections, shall be held on the regular election day by the regular election officers.

The canvassing board having authority to canvas the election returns for elections held within said city and county shall canvas the returns of said election and shall correctly certify the result of said elections showing the total number of votes cast for and the total number of votes cast against said proposition, which certificate shall be delivered to the clerk of the county court, and a copy thereof delivered to the clerk of the city; and at the next regular term of said county court the county judge shall cause said certificate to be spread on the order book of said court, and the entry of said certificate in the order book or copy thereof, shall be prima facie evidence of the facts therein contained, and shall be conclusive evidence of said election and the result thereof.

If a majority of the votes cast at said election shall be in favor of organizing and governing the city under the provisions of this act, a certified copy of the certificate of said canvassing board shall be spread upon the records of said city at the next regular meeting of its Board of Commissioners or City Council. Thereupon said city shall be organized and governed by the provisions of this act. But failure on the

part of any of said ministerial officers to perform their duties as required in this section shall not prevent the organization and government of said city under the provisions hereof.

C.

All the present city officers save those of mayor and police judge, shall at the expiration of that year which shall next follow the year in which said election is held be ipso facto abolished, if the vote at said election shall be in favor of the organization and government of the city under this act. Provided, however, that the commissioners or other officers then or theretofore elected by the people shall continue in office and administer the government of such city until the expiration of the terms for which they were elected; and provided further that elections under this act shall be held in the same year that the mayor or police judge is elected.

D.

At the regular city election in the year next following the year in which the election is held, pursuant to Section B hereof, there shall be elected by the qualified voters of said city two commissioners who shall serve for a period of two years each respectively, and such election for commissioners shall be held biennially; and at each alternate election for commissioners there shall be elected a mayor or police judge. Said commissioners shall serve each for a term of two years. Said mayor and police judge shall serve each for a term of four years. The mayor, police judge and commissioners shall be nominated and elected from the city at large and as herein prescribed.

E.

No person shall be elected without first having been nominated in the manner hereinafter prescribed. On the third Saturday before the day for the regular election there shall be held a primary election. Said primary election shall be con-

ducted by the same officers chosen and acting in the same manner, with the same rights and duties, as in the later regular election.

Each applicant for nomination shall, at least ten days before the day for said primary election, file with the county clerk a petition signed by at least one hundred voters and in the following form:

“We, the undersigned, qualified voters of the city of (Naming it), and residing each at the place indicated opposite his name signed hereto, do hereby request that the name of (naming the applicant) be placed on the ballot as that of an applicant for nomination for the office of (naming the office sought), at the primary election to be held in our city on the third Saturday before the next regular election. We know the applicant to be a qualified voter of the city and a man of good character; and he is, in our judgment, qualified for the duties of the office sought by him.”

Names

Numbers

Streets

Such petition shall be verified by the affidavit of some person or persons as to the genuineness of the signatures and addresses of the signers.

No voter shall sign more than one such petition with reference to each office that is to be filled. In the event that a person shall sign more than one petition of applicants for nomination for mayor or police judge or shall sign the petitions of more than four applicants for nomination for commissioners, then the name of said petitioner shall not be counted as a valid name on any of said petitions.

Immediately upon the expiration of the time for filing such petitions the said county clerk shall cause to be published for three successive days in the official newspaper of the city, and in such other papers as he may designate, in proper form,

the names of the persons as they will appear upon the primary ballots; and the said clerk shall thereupon cause the primary ballots to be printed, authenticated with a fac simile of his signature. Provided, however, that immediately upon the expiration of the time of filing such petitions, if it should appear that there are only two applicants for nomination for mayor or police judge, and only four applicants so nominated by such petitions for commissioners, such two applicants for mayor or police judge and such four applicants for commissioners, as the case may be, shall be thereupon nominated and the names of such nominees shall not be placed upon the primary ballot for such primary election, and no primary election shall be held for nomination for such offices; but the county clerk shall cause the names of such applicants to be placed on the regular ballot for the general election.

Upon said ballots the names of said applicants for each nomination shall be placed in alphabetical order, with a square at the right of each name, and above the names of the applicants for nomination for mayor or police judge, as the case may be, shall be printed the words "Vote for one," and above the names of the applicant for nominations for commissioners shall be printed the words "Vote for two." The ballots shall contain no party designation or emblem of any kind, nor any **sign indicating** any applicant's political belief or party affiliation.

Having caused said ballots to be printed, the said county clerk shall cause to be delivered at each polling place a number of said ballots equal to twice the number of votes cast in such polling precinct at the last preceding general municipal election for mayor. The persons who are qualified to vote at the general municipal election shall be qualified to vote at such primary election, and the law applicable to challenges made at a general municipal election shall be applicable to challenges made at such primary election.

At such primary election the two applicants receiving the highest number of votes for nomination for mayor or police

judge, as the case may be, shall be thereby nominated; and the four applicants receiving the highest number of votes for nomination for commissioners shall be thereby nominated.

F.

At the regular election held under this act the names of the nominees who shall be selected by the primary or who shall be certified by the county clerk, as herein provided, shall be placed in alphabetical order upon ballots differing from those used in the nomination only in that said regular election ballots shall contain only the names of the successful nominees and said ballot shall contain the heading "CITY BALLOT." The nominee receiving the greater number of votes cast for mayor or police judge, and the two nominees receiving the greater number of votes cast for commissioners shall be declared elected respectively and certificates of election issued accordingly.

G.

Every fourth year after the election at which a mayor and two commissioners shall be elected, and every fourth year after the election at which a police judge and two commissioners are elected, a primary election and a regular election shall be held in the same manner for said offices. Any legal voter not less than 25 years of age and possessing the other qualifications prescribed by law shall be eligible to election to any office under this act.

H.

The mayor shall be elected for a term of four years beginning on the first Monday in January following his election, and he shall receive an annual salary of \$4,000.00; and said two commissioners shall be elected for a term of two years beginning on the first Monday in January following their election and each commissioner shall receive an annual salary of \$3,600.00.

I.

The mayor and two commissioners shall constitute a board of commissioners. In this board of commissioners shall be vested all the legislative, executive and administrative power of the city save as herein otherwise provided. Two members of the board of Commissioners shall constitute a quorum, but the affirmative vote of at least two members shall be necessary to the adoption of any motion, resolution or ordinance or the making or approval of any contract or the passage of any measure.

Upon each vote the yeas and nays shall be recorded and every motion, resolution and ordinance shall be reduced to writing and read before the vote is taken thereon. The mayor shall preside at meetings of the board, but he shall have no veto power. Every resolution, measure or ordinance and all contracts shall be signed by him or by the two commissioners and recorded before it shall take effect. The board of commissioners shall at the beginning of its term of office elect by a majority vote one commissioner to act as mayor pro tem., and the commissioner so chosen shall be vested with all the power and shall perform all the duties of mayor in the event of his absence from the city or his inability to attend the duties of his office.

J.

Every ordinance or resolution ordering the construction or reconstruction of any street or sewer, or making or authorizing any contract involving the expenditure of more than One Thousand Dollars (\$1,000.00) or granting any franchise or the right to use or occupy the streets, highways, bridges, or public places of the city for any except a merely temporary purpose shall after its introduction and before its adoption remain on file at least one week for public inspection in the completed form in which it shall be put upon its final passage; and no such ordinance or resolution shall go into effect until the expiration of ten days after its passage, except in case of emergency the public health or safety shall require that it

take immediate effect, which fact shall be declared by the unanimous vote of the board of commissioners.

K.

The board of commissioners shall meet at least once a week for the transaction of its business. It shall fix by ordinance the time of holding its regular meetings. Any special meeting may be called by the mayor or by two commissioners. All meetings shall be public.

L.

The administrative function of the city shall be classified under three departments, as follows:

1. Department of Public Affairs;
2. Department of Public Finance;
3. Department of Public Works.

M.

The board of commissioners shall determine the functions of each department, and shall prescribe the duties of its commissioner and of his employees. It may assign any employee to one or more departments or require any employee to perform duties in two or more departments. It shall make all such rules and regulations as to the conduct of the various departments as may be necessary and proper for the efficient and economic conduct of the business of the city.

N.

The mayor shall be the commissioner of the department of public affairs and shall have a general advisory supervision of the affairs of the other departments. The board of commissioners shall at its first regular meeting designate by majority vote one commissioner to have superintendence of the department of public finance and one commissioner to have superintendence of the department of public works.

O.

The board of commissioners shall also at its first meeting, or as soon thereafter as may be practicable, appoint all such employees as may be necessary for the proper and efficient conduct of the affairs of the city.

All such employees shall be agents, not officers of the city; and they shall perform such duties and for such compensation as the board of commissioners may by ordinance prescribe. Each employee shall be selected with reference solely to his fitness and for the good of the public service (without reference to his political faith or party affiliation) and the board of commissioners shall adopt such rules and regulations looking to the appointment and discharge of employees as will tend to carry out the spirit of this provision and lead to the establishment of the merit (system) in public service.

P.

The board of commissioners shall at the termination of each month of the fiscal year cause to be printed in the official newspaper an itemized statement of all receipts and expenses of the city during the month.

At the termination of each fiscal year the board of commissioners shall cause one or more competent accountants to make a complete examination of the books and accounts of the city, and shall cause the result of such examination to be published in the official newspaper and in pamphlet form, and a copy of the report in pamphlet form to be given to each voter who may apply for same at the proper office.

Q.

In case of the death, resignation, or inability of the mayor, causing a permanent vacancy in said office, the mayor pro tem. shall act as mayor and shall possess all the rights and powers and perform all the duties of the mayor and receive his salary, under the official title, however, of mayor pro tem., until such vacancy in the office of mayor is filled by an election

ordered by the board of commissioners for that purpose, at which time the mayor pro tem, if his term as commissioner be then unexpired, shall resume his duties as such commissioner.

In the event that any commissioner shall for more than thirty days be necessarily absent from the city, or for the same period shall be unable from sickness or other cause to discharge the duties of his office, or in the event the mayor pro tem. shall be filling the office of mayor, as contemplated above, for such period, the board of commissioners may fill such office temporarily by appointment, and said appointee shall discharge the duties of the commissioner whose place may thus be temporarily filled until such commissioner shall return or become fit for and resume his duties, and any such temporary appointee shall serve without compensation.

In the event of a permanent vacancy in the board of commissioners caused by the death, resignation or inability of any member thereof, or in the event a permanent vacancy in the office of mayor shall be filled by the mayor pro tem., such vacancy shall be filled by appointment by the other members of the board until the vacancy shall be filled by the election of a successor at the next regular election of municipal officers, as is prescribed by law, and such temporary appointee shall, for the time he serves as such, receive the salary of the commissioner whose place he has been appointed to fill.

A vacancy shall exist when any elective officer fails to qualify within ten days after notice of his election, or dies, (or resigns), or moves his domicile outside the city, or remains outside the city for a period of six months, or is convicted of a felony, or is judicially declared insane, or is removed from office in any manner.

R.

In case of misconduct, inability, or willful neglect in the performance of the duties of his office, the mayor or any

commissioner may be removed from office by a unanimous vote of the other members of the board of commissioners. But no such officer shall be so removed without having been given the right to have a full public hearing with representation by counsel and with witnesses summoned in his behalf and required to testify. The findings of fact at such hearing, and the reasons for any such removal, shall be stated in writing and filed as matter of public record.

S.

If during the ten days next following the passage of any such ordinance as cannot within said ten days become effective, a petition signed by a number of voters equal to at least twenty-five per centum (25%) of the total number of votes cast for both candidates for mayor at the last preceding regular election for mayor, stating the residence of each signer, and verified as to signatures and residences by the affidavits of some one or more persons, shall be presented to the board of commissioners, protesting against the passage of such ordinance, such ordinance shall be suspended from going into effect, and shall be reconsidered by the board of commissioners. If such ordinance be not then repealed, the board shall submit to the voters of the whole city at either a special or a regular election according to law, the following question: "Shall the ordinance (briefly describing it), go into affect" and if a majority of the votes cast upon such question be in the negative the ordinance shall not go into effect. But if the majority of the votes cast upon such question be in the affirmative the ordinance shall go into effect as soon as the result is officially ascertained and declared.

T.

If a petition signed by a number of voters equal to at least twenty-five per centum (25%) of the total number of votes cast for both candidates for mayor at the last preceding

regular election for mayor, stating the residence of each signer, and verified by affidavits of some one or more persons as to the signatures and residences, requesting the board of commissioners to pass an ordinance therein set forth—if such petition be presented to the board of commissioners, and if the ordinance therein requested to be passed be one that the board has a legal right to pass, then the board shall either pass such proposed ordinance without alteration, within ten days after such petition is filed, or submit the question of its passage to the voters of the city at the next regular election. At such election the question submitted shall be: “Shall the proposed ordinance (briefly describing it), be passed?” If a majority of the votes cast upon said question be in the affirmative, the proposed ordinance shall be thereby passed, and shall become effective, as soon as the result is officially ascertained and declared. Any such ordinance shall not be amended or repealed except by the voters at a regular biennial city election. Any number of proposed ordinances requested by petition as above provided for may be voted on at any election.

The board of commissioners may submit the question or the repeal or amendment of any such ordinance to the voters at any succeeding regular city election; and if a majority of the votes cast on such question be in favor of the repeal or amendment, such ordinance shall be thereby repealed, or amended, as the case may be.

U.

Whenever a question of passage of a proposed ordinance, or of the going into effect, or the repeal, or the amendment of an ordinance is to be submitted to the voters at an election, the board of commissioners shall cause the proposed ordinance or ordinances, or the ordinance and amendment, as the case may be, to be printed once in the official newspaper of the city, and in such other newspapers as the board of commissioners may direct, before such election.

V.

The expense of all primary elections under the provisions of this act shall be paid by the city.

W.

The mayor and each commissioner shall execute a bond to the city, upon which an action may be maintained by any person or persons, interested in the keeping of the covenants therein contained in the penal sum of ten thousand dollars (10,000.00), conditioned upon the faithful performance of his official duties, such bonds to be approved by the county judge, and filed as matters of public record.

X.

Nothing herein shall be construed to apply to the organization, existence, or conducting the affairs, of the Board of Education.

Mr. Clark sent to the Clerk's desk the following communication, from various and sundry citizens of Murray, Kentucky:

Whereas, the western part of Kentucky has been segregated from the major portion of the Commonwealth by rivers, distance and other barriers, and has been denied the educational opportunities of the more fortunate regions of the State, and

Whereas, this institution was in due time established at Murray in obedience to an educational survey commission appointed under the General Assembly, and

Whereas, President Rainey T. Wells is being personally and unjustly attacked through the public press and through other channels with false accusations to the effect that

through his influence he has defrauded the State of Kentucky by the sale of his lands and the sale of his private home, and

Whereas, the people of Western Kentucky resent such false accusations and the lack of co-operation on the part of certain individuals, therefore,

Be It Resolved, that we, the citizens of Murray and Calloway County, representing each church and civic organization of this community, wish to express our absolute confidence in the integrity, ability and character of our president and in the wisdom of the policies that he has put into effect for the educational welfare and development of the youth of our state, and

Be It Further Resolved, that, we the citizens of Murray and Calloway county, believe that the people of the Commonwealth should be informed of the fact that the grounds upon which the original campus is now located were not purchased by the State of Kentucky, but by the citizens of this community and given to the State of Kentucky, and

Be It Further Resolved, that, the citizens of Murray and Calloway County donated \$100,000 to construct the first building of the college plant and dedicated it to the state, and

Be It Further Resolved, that, the Commonwealth be informed that the home and grounds where President Wells resides are not, and never have been, the property of the State or the college, but are his own property, and

Be It Further Resolved, that, these concrete manifestations of the generosity of the citizens of this community are based on their faith in the leadership and integrity of the founder of this college, who believed them and now that the youth, especially of Western Kentucky, should not be denied the educational advantages equal to those enjoyed in other parts of the Commonwealth of Kentucky, and

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That it shall be unlawful for any person or persons to injure, deface or damage, or to attempt to inquire, deface or damage, in any manner whatsoever, any bridge or ferry, or any part thereof, now or hereafter owned or operated by the Commonwealth of Kentucky; and any person or persons so offending shall, upon conviction for each offense, be deemed guilty of a misdemeanor and shall be fined not less than \$10.00 nor more than \$300.00, or confined in the county jail not less than ten days nor more than six months, or both so fined and imprisoned in the discretion of the jury.

§ 2. That it shall be unlawful for any person or persons, except employees of the State Highway Commission of Kentucky while engaged in the discharge of their duties, and except as otherwise provided in this Act, to pass over or upon any bridge or ferry now or hereafter owned or operated by The State Highway Commission of Kentucky, upon which bridge or ferry tolls are at such time regularly collected, without paying to the collector of tolls then stationed at such bridge or ferry at the time of such passage, in legal tender, such amount of toll as may be prescribed by rule or regulation of The State Highway Commission of Kentucky, or by law, for passage over such bridge or ferry, including vehicular traffic over or upon any such bridge or ferry; and any person or persons so offending, upon conviction of this offense shall be guilty of a misdemeanor and shall be fined not less than \$10.00 nor more than \$100.00 for each offense.

§ 3. Nothing contained in Section 2 of this Act shall be construed as requiring the personnel of the Kentucky National Guard, while engaged in the discharge of official

business, to pay to the collector of tolls stationed at any bridge or ferry within the purview of this Act the tolls regularly collected at such bridge or ferry, either for the passage of himself or for the conveyance of the military property of the State in his charge; provided, however, that a member of such personnel shall, at the time of passage over or upon any such bridge or ferry, exhibit to the collector of tolls, stationed thereat, a written official order indicating that such person or persons are at the time engaged upon official business, and unless so exhibited such passage shall be unlawful.

§ 4. That for purposes of the enforcement of this Act every person appointed or employed by The State Highway Commission of Kentucky to be a collector of tolls upon or at any bridge or ferry now or hereafter owned or operated by the Commonwealth of Kentucky through its agent, The State Highway Commission of Kentucky, shall possess and exercise all of the powers now vested by law in peace officers within this Commonwealth; provided, however, that the powers herein conferred upon collectors of tolls are expressly limited to the arrest and prosecution of persons committing public offenses upon the highways, bridges and ferries so owned or operated, and the approaches thereto, within this Commonwealth, and all things incident thereto.

§ 5. That every person so appointed by The State Highways Commission of Kentucky to be a collector of tolls upon any bridge or ferry so owned or operated within this Commonwealth shall, before entering upon the discharge of his duties, execute bond to the Commonwealth with good and sufficient surety, conditioned for the faithful performance of his duties as such collector of tolls, and shall take and subscribe the constitutional oath of office. copies thereof, as the case may be, shall be duly filed and entered of record in the office of The State Highway Commission of Kentucky. All such collectors of toll shall be subject to all the penalties, liabilities and obligations now imposed by law on peace officers.

§ 6. For the further purpose of enforcing this Act, The State Highway Commission of Kentucky is hereby vested with power and authority to make and promulgate such rules and regulations, not inconsistent with the Constitution and laws of this Commonwealth, as may be necessary to effectuate the purposes of this Act.

§ 7. All laws or parts of laws conflicting herewith are hereby repealed.

§ 8. Whereas, considerable difficulty has arisen in connection with the maintenance and operation of bridges and ferries now owned or operated by the Commonwealth through its agent, The State Highway Commission of Kentucky, resulting in conflicts between collectors of tolls stationed thereat and numerous persons seeking passage upon such bridges and ferries, and

Whereas, the need is urgent and necessary for immediate relief for the protection of the Commission, its agents, servants and employees, of the maintenance and operation of such bridges and ferries and in the collection of tolls thereon,

“The sheriff or collector shall, on or before the first day of June next succeeding his election, and on or before the said day annually thereafter, enter into bonds with surety for the faithful performance of his duties as revenue collector. A quietus by the auditor of public accounts, and from the fiscal court of this county for the preceeding year following the first one shall be produced by each sheriff or collector of the county court on or before that day, and no tax-book shall be delivered to the sheriff or collector after the first year of his term who shall fail to exhibit such quietus on or before that date. He may execute bond at any time after he qualifies, up to and including the first day of June succeeding his election, and it shall be the duty of the judge of the county court to hold a court at any time the sheriff may request for that purpose.

The county judge shall judge of the sufficiency of the surety, and in no case shall sureties be taken who are not jointly worth, subject to execution after the payment of all their debts and liabilities, a sum equal to the aggregate amount of money which may probably be received by the sheriff or collector during the year succeeding the execution of the bond.

The sheriff or collector whose duty it is to receive or collect the taxes shall collect the interest and penalty and account for the same in the same way in which they are required to collect and account for the taxes.

§ 6. If any section of this act shall be held to be invalid or unconstitutional, such fact shall not affect any other section of this act, it being the intention of the General Assembly in enacting this act to enact each section separately; and if

any proviso or exception contained in any section of this act shall be held invalid or unconstitutional, such fact shall not affect the remaining portion of such section, it being the intention of the General Assembly to enact each section of this act and each proviso and each exception thereto separately.

Mr. Lebus moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said motion was agreed to.

The House took up for consideration from the Orders of the Day, a bill entitled:

H. B. 672. An Act to amend and re-enact an Act of the General Assembly of the Commonwealth of Kentucky of 1932 known as House Bill No. 245, approved by the Governor on February 2, 1932, and entitled "An Act to amend and re-enact Section 4693, Carroll's Kentucky Statutes, relating to depositories."

With Committee amendments there to.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That an Act of the General Assembly of the Commonwealth of Kentucky of 1932 known as House Bill No. 245, approved by the Governor on February 2, 1932, and entitled "An Act to amend and re-enact Section 4693, Carroll's Kentucky Statutes, relating to depositories" be amended and re-enacted so that, when amended and re-enacted, said Act approved February 2, 1932, and said Section 4693 of Carroll's Kentucky Statutes, Baldwin's 1930 Edition, shall read as follows:

"Before any bank shall be named as depository, or permitted to receive public funds, said bank shall execute to the Commonwealth of Kentucky a bond, with good surety, worth severally or jointly, not less than One Hundred Thousand Dollars (\$100,000.00) to be approved by the Treasurer, conditioned that said bank will pay over, when demanded, all money deposited with it by the Treasurer, and otherwise faithfully comply with the requirements of the law relating to it as a depository. The bond shall be filed with and be recorded by the Secretary of State, and shall be renewed at least once in every two years and oftener if required by the

Treasurer. Or, in lieu of the bond herein provided for, said bank may pledge with the State Treasurer, to secure said deposit, and for that purpose the State Treasurer may accept, warrants issued by the Auditor of Public Accounts against the State Treasurer and/or such government bonds as are direct obligations of the United States Government, provided that such warrants and/or bonds shall have a total face value in an amount at least ten per centum (10%) in excess of said deposit and provided further that the State Treasurer shall at all times require such pledge of state warrants and/or United States bonds as will have a currently quoted market value at least equal to said deposit and for that purpose the Treasurer shall from time to time call for additional security of such warrants or such bonds, as current market values may require. A written receipt for which warrants and/or bonds so pledged shall be delivered by the Treasurer to the depository pledging same. And the Commonwealth of Kentucky shall be liable to said bank for the safe keeping of state warrants and/or United States bonds pledged under this Act, while so pledged, and to enforce said liability said bank is hereby granted permission to maintain an action against the Commonwealth in the Franklin Circuit Court from the judgment of which court an appeal by either party shall lie to the Court of Appeals as in other cases provided. The execution of this bond, or the deposit of the public funds in banks named as depositories, or the pledge of said State warrants and/or Government bonds shall not in any wise diminish the liability of the Treasurer and his sureties upon his bond; nor shall the execution of said bond nor the pledge hereunder impair or delay the right of the Commonwealth to recover on the Treasurer's bond for any loss or misapplication of the public funds or other delinquency in office. Neither shall the execution of the bond by the bank nor said pledge impair or delay in any way the right of the Commonwealth to recover from any delinquent or defaulting bank, or the officers or stockholders thereof, in the same manner as other depositories."

All laws or parts of laws inconsistent with this Act are hereby repealed.

WHEREAS, because of the current financial stringency and the practically insuperable difficulties now encountered by State depository banks in securing depository bonds, a flight of capital from the State, to the irreparably injury of agriculture and industry is imminent, an emergency is declared to exist and this bill shall take effect upon its passage and approval by the Governor.

Mr. Hammons moved that the reading of the Journal of Saturday's proceedings be dispensed with.

Said motion was agreed to.

Mr. Beshear offered the following resolution, viz.:

Whereas, the members of this House are conscientiously endeavoring to carefully study the merits of each bill pending in the General Assembly in the earnest desire to enact only such bills as will be for the best interest of the Commonwealth of Kentucky and of the citizens and taxpayers thereof, and,

Whereas, there rests upon each member of this House the solemn obligation of performing his duty by voting, after full and careful consideration, for or against any bill as his conscience and judgment dictates as being for the common welfare, and

Whereas, members of this House have been and are being constantly embarrassed and harassed in performing

said duties by the acts and circumstances hereinafter complained of, to wit: By executive or administrative officers of this Commonwealth, both elective and appointive, appearing on the floor of this House and in the corridors lobbying for or against bills which in no way affect the administration of their respective offices or departments, and by such officers insiduously endeavoring to influence various members of this House to vote contrary to their own judgment, and

Whereas, such officers have been granted the privilege of the floor of this House as a courtesy on account of the high office which they hold, and

Whereas, it is the sense of the members of this House that it is an abuse of the privilege of the floor for persons having such privilege to lobby with the members of the House while on the floor or while the House is in session or otherwise seek to influence any member to vote for or against any bill which does not affect the administration of such persons' office or department,

Now Therefore, be it resolved that all persons, other than the members of the General Assembly, who have or exercise the privilege of the floor of this House be and they are respectfully requested to respect the privilege of the floor and the individual members of this House by desisting from the practices above complained of.

The President of the Senate appointed Senators Gates and Dawson and Messrs. Lebus and Renick to wait upon the Governor and to notify him that the Joint Assembly is now ready to receive any message which the Governor may desire to communicate.

After a time the Governor of the Commonwealth of Kentucky appeared upon the floor of the hall of the House of Representatives and taking his position at the chief Clerk's desk, delivered the following message to the General Assembly, viz.:

We are today face to face with a condition of fiscal affairs in our State that challenges our most painstaking and careful consideration.

Standing in the watch tower, as I do, by virtue of being Chief Executive of the State, it is my duty to warn you of the impending danger that is threatening the welfare of Kentucky, and, to the best of my humble ability, to lead you into a haven of rest and security. This is my most sincere desire and, in discharging this duty, I shall not assume the role of a dictator but, instead, the attitude of a friendly adviser.

If you follow my leading, I will gladly assume all responsibility, knowing full well that the consequences are mine; but if you shall refuse to heed by advice, then I want you, and the people of Kentucky, as well, to know that any impairment of the State government in any of its functions rests upon your shoulder, and not upon mine.

Like heroes of old, let us meet our duty and discharge it, and not, like cringing cowards, slink away and leave our beloved Kentucky to suffer and bleed.

There have been some unjust and unfounded criticism of this administration by those who seek to tear down rather than to build up, because, as they falsely charge, those entrusted with the government of our State have no well-defined plan to offer for the alleviation of our financial troubles. These poisoned arrows, aimed directly at the heart, go wide of their mark and fall unnoticed at our feet.

We have a well-defined plan—one that is fair and just and honest, and one that will, if given life by legislative enactment, make Kentucky one of the best governed states in the whole sisterhood of states.

I came before you today, after mature and conscientious deliberation, to define that plan to you, and to insist that you vitalize it by giving it your legislative approval. This plan is no patent nostrum prescribed by a quack physician to a sick patient, that will only add to his misery but, instead, it is a compound cathartic that will cleanse the system and purify the life current of the body politic. The plan that I shall propose and insist upon is progressive in its nature; it is not an untried experiment, but is one that has been invoked in other states and in other countries to the delight and satisfaction of the taxpayers wherever it has been tried. The plan that I propose was born in the fertile brain of Adam Smith, perhaps the greatest political economist the world has ever known. When discussing it, he said of it that it was the fairest and most equitable revenue-producing law that could be enacted, as it was one that could be thinly spread out so as to rest equally upon the greatest number of taxpayers and that would not prove a burden to any particular class.

Kentucky's problem is to find a way to carry on. To accomplish this, we must bring to bear the supreme test of our combined common sense.

There has been, due to shrinkage in taxable values for taxation purposes, a fall off in the available revenues to meet the current expenses of the State in about the sum of five millions of dollars for the present biennial period; but for the next biennial period, beginning July 1, 1934, the deficit will be greatly increased over what it will be for the ensuing two-year period from July 1, 1932.

To meet this crisis, we are confronted with two possible courses to pursue to solve it in the interest of good government for Kentucky.

First: We must cut the current expenses of the Government of our State to the bleeding point in an effort to give to Kentucky an economical administration of her affairs.

With this end in view, your Budget Commission found it

necessary to recommend a reduction in legislative appropriations for the maintenance of the various departments and agencies of your State government. These reductions will amount, in the aggregate, to something like the sum of two million five hundred thousand dollars. This, gentlemen, of the General Assembly, is a considerable saving to the taxpayers of the State, and is a wholesome piece of work upon the part of the Budget Commission.

Notwithstanding, however, this appreciable reduction on the part of the Budget Commission, I recommend, most earnestly that when you come to enact Appropriation Law, that you will make a horizontal reduction of five per cent in all appropriations set forth in the Budget Act, except in the sum set apart for the support of the common schools of the State. The allowance to them, in my opinion, should not be reduced. When this is done, the Budget will still remain out of balance by at least some four or five millions of dollars. This deficit, of necessity, must be met and provided for, if Kentucky is to have an efficient government and, at the same time, be made to live within her income; and unless this is done, the present indebtedness against the State will continue to increase and become a greater burden upon the taxpayers, or else the efficiency of our government will be impaired.

This emergency, and it is an emergency, must be met; and this is the greatest problem that confronts this administration.

Second: To provide the necessary revenues to properly administer the State Government, after the reduction to the lowest possible level, of the amounts set apart to the various departments and agencies of the State, necessitates a re-adjustment of our tax-raising laws. This, in my opinion, is the only solution of the problem that faces us and that we are forced to solve. Then how shall we go about the task?

There is, in my honest opinion, after having given to this momentous question the best thought and study of which I

am capable, only one safe, sane, scientific and just solution of it; and that is the enactment and putting in force a general sales tax law that will be properly safeguarded in its mode of execution. When such a law becomes effective, it will obviate the necessity of increasing the tax upon gasoline, and of placing a new tax upon electric energy, soft drinks, telephone messages and rents, gas, malt, amusement tickets, cosmetics, the transfer of shares of stock, manufactured tobaccos, cigars and cigarettes, a tax upon oils and greases, and will likewise remove the necessity of lowering the brackets in the gross sales tax law that was passed by the last General Assembly.

These taxes, after all, are no more or less than a sales tax, and would affect practically all the people who will be subjected to the tax paid under the law that I propose. The Gross Sales Tax, imposed by the Act that I have prepared and want enacted, is a scientific tax law, while the tax law that has been proposed to pay taxes upon a few selected commodities, such as I have named, is like a crazy quilt, and is unscientific, and would prove exceedingly burdensome, and a hardship in most instances upon those who would be required to pay it and, besides, would be costly to administer.

Under the gross sales tax plan that I favor, every commodity that I have named will be subject to the tax and will bear its part of the burden of the government of the State.

The legality of a gross sales tax law, such as I am fostering, has been upheld in the courts of various states, and can not be questioned. This is not true of any other tax-raising measure that has been introduced in the House of Representatives; or that I have heard spoken of or proposed for passage as a revenue-producing measure. The legality of the law, is in my opinion, one of the potential reasons why it should be enacted.

It is an emergency measure, intended to meet the present deficit in State funds for the ensuing biennial period; and I am only asking that it be passed as such and to remain in

force for only two years from its effective date. If it is not a satisfactory law to the taxpayers, it will automatically cease to function unless re-enacted by the next General Assembly.

Although you may consider it an experiment, still you should give it a trial for the reason that it will supply the needed revenues to meet the already existing deficit, something which can be accomplished in no other way with certainty.

Under the proposed gross sales tax, no tax will be due or paid, except where the sale is made for cash; or if made upon open account, when the account is paid in money or other valuable consideration, or is secured by note, mortgage or pledge. This tax will apply only to sales made at retail, and does not attach to sales made for the purpose of re-sale, or to the sale of raw materials to be used in manufacture, or conversion into tangible personal property for the purpose of sale; or to the sale of farm products by the purchasers thereof. It does not apply to the purchase of newspapers or of space therein, or to sales of property or services upon which there is now, or may be levied, a tax; or to salaries or services of laborers and professional services and salaries; or to transportation of persons or property, and does not apply to sales of coal unless sold in less than carload lots.

The rate of taxation as fixed under the proposed law is two per cent, and it should not be less than that rate, for the protection of the small merchant and for the very potent reason that any less rate will not yield sufficient revenue to meet the requirements of the Government, even though economically administered.

Under the sales tax law the person who buys fixes the amount of the tax that he or she is to pay for the support of the government. If limited in means, but little should be spent; if more fortunate, then more could be used in buying; So that the matter rests at last in the hands of the buyer as to the sum that will be contributed in taxes for the maintenance of the government.

Some form of taxation must be invoked, or governments cannot exist; and taxes are something that touches every individual in the state or nation, and must be paid by virtue of the provisions of some revenue-raising law. It will not be questioned that it is the duty of every citizen to contribute his part for the support of the government under which he lives—this is one of the citizen's first duties—and its support should be contributed to by all who are benefited by it, not, however, in proportion to the favors received, but, instead, in proportion to the ability to meet the obligation.

I stand unalterably in favor of a sales tax law, because it is eminently just and fair. In defense of my position I appropriate a borrowed argument in its favor:

“Now, then—why a sales tax? It taxes spending not earning. It taxes extravagance, not economy. It is equitable to everyone. It works a hardship on no one. It is easy to pay and easy to collect. It does not confiscate. It does not upset business. You are never in debt to the government. You pay in infinitesimal installments. Nobody can evade it. There are no exemptions, no escape into tax-free securities. It does away with prying and spying. It is just and fair and reasonable, and the most economical method for the Government.”

If you enact a gross sales tax law, then, as a companion measure to it, you should also pass an act amending Section 4019 of the Kentucky Statutes, thereby reducing the tax rate on real estate to ten cents upon each one hundred dollars in value, and also reducing the tax rate upon tangible personal property to twenty-five cents on assessed valuation.

By thus amending this law, there will be a reduction of $66\frac{2}{3}$ per cent in taxes for state purposes upon all real estate, and a reduction of fifty per cent in taxes, for like purposes, upon all tangible personal property now subject to taxation under the laws of Kentucky. Such a reduction will result in a great saving to every land owner, and to the owners of

stocks of merchandise and other tangible personal property throughout the State.

The saving to the taxpayer that will be effected by this amendment, will amount, in most instances, to a greater sum than will be called upon to pay under the gross sales tax law that I am so insistently urging you to enact. When you consider this fact, you can readily understand why it is that a gross sales tax law will not prove burdensome to the taxpayers of Kentucky. Any law is sound that is based upon spending and not upon saving.

As I have said before, a sales tax is not an untried experiment. It is now in force in many foreign countries and in some of the states of our own country; and wherever it has been has been restored to, it has been a great success—so much so, that the taxpayers are satisfied with it and resent its repeal.

I am also proposing an amendment to the Constitution of Kentucky (Section 172 thereof) giving to the General Assembly the power to exempt real estate and tangible personal property from all taxation for state purposes. I am insisting upon this amendment being submitted to the people of Kentucky for their approval.

If you will enact into law these three measures that I have proposed, and will pass other bills now pending before you, limiting the expenditures of the departments of Government to the Budget Appropriation, I promise you that I will fulfill every promise made to the people of Kentucky in my pre-election campaign for the high office of Governor.

There are some other laws, besides the ones to which I have specifically referred, that I am equally anxious that you should place upon the statute books. For lack of time, I will content myself by simply referring to them, as I cannot, in justice to you, discuss them in detail on this occasion.

I favor a law placing the State Geological Survey under the supervision of the University of Kentucky, and have had

prepared for submission to you a bill embracing my ideas regarding this important change.

I believe that a law should be enacted that will reasonably regulate motor transportation in our State. This should be done for the protection of shippers, the public highways, and citizens traveling upon them. Such a law would be wholesome and will receive the endorsement of the people of the State.

I favor a law creating a Utilities Commission, and providing for a reasonable regulation for all public utilities that render service to the public. The expenses of such a commission should be borne by the utility companies regulated by it, and should be appointed by the Governor.

I also favor the enactment of a probation law, giving to some officer or tribunal of the State the right to place certain offenders on probation. Such a law, if properly executed, is a humanitarian measure, and would result in a great saving to the State. This law should be carefully prepared, and should be passed in obedience to the demands of the people.

I favor the enactment of the act relating to the Board of Charities and Correction, as it was amended and passed by the Senate, and that is now before the House for its concurrence. A Board of Charities and Correction composed of men and women who have the interest of the Charitable and Penal Institutions at heart, and who will make a study of their management, will result in an immense saving to the taxpayers of Kentucky. I believe that this board should be reduced in number to five; that the members should be paid for their services, and required to devote their time and attention to the duties imposed upon them by law. If this were the law, the saving would be many, many times greater than the cost of administering it.

I favor the concurrence of the House in the enactment of the Yates bill, relating to Tax Commission. This bill, in my opinion, should be passed by the House without amendments,

and I most respectively insist that this be done. This law, if passed as originally drawn, will be to the best interest of the people of the State, and will result in a saving to the taxpayers thereof.

There will be offered to you for passage an act amending the present law relating to the assessment of real property for taxation. If this proposed act becomes law, the assessment of real estate will be made once every four years instead of being made annually as is now done under the existing law. It will also take away from the Tax Commission the right to place blanket raises upon the assessed valuations of property for taxation in the counties of the State. This law will be a remedial measure and will result in a tremendous saving to the taxpayers.

There are a number of bills that have been introduced, seeking to combine various boards and commissions, that are performing overlapping or similar duties in our Government. These have my unqualified endorsement, and I most earnestly insist upon their being enacted into law.

I favor the re-districting of the State, pursuant to the Re-organization Act of Congress, and believe that it should be done by this General Assembly. I shall have something to say later to you upon this subject.

The people of Kentucky were solemnly promised that if we were elected, Kentucky would live within her income. So far as I am concerned, this promise will be scrupulously kept at all hazards. It may require heroic measures, but the promise must kept. It may necessitate the closing down of some departments of State Government, the shortening of the terms of our state-supported colleges and universities, and the emptying of the penitentiaries. The end will justify the means, and I intend to keep the promise made to the people—and Kentucky must live within its income. To this end, I feel justified in saying to you that I will not sign any appropriation act that may be passed until the budget for the ensuing

biennial period is balanced; and that I will not, in justice to the taxpayers of Kentucky, call an extra session of the General Assembly for any purpose whatsoever. We can accomplish what we set out to do, and what the people of Kentucky are expecting us to do, if we will but apply our energies to this task.

At the conclusion of the Governor's Message, the Hon. Alben W. Barkley, United States Senator from Kentucky, appeared upon the floor of the hall of the House of Representatives and taking his position at the chief clerk's desk, delivered an address to the Joint Assembly.

Whereas tourist and strangers are largely attracted thereby and caused to visit the Capitol city, and

Whereas, certain commercial interests have recently engaged for commercial purposes only, in the defacing of the natural surface of the hills by the operation of rock quarries, so as to mar and destroy the natural beauty thereof, and

Whereas, such operation, unless soon abandoned, will render the perspective of such natural surroundings unpleasant and distasteful, as well as destructive of all ornamental effect, and

Whereas, the condition of the public treasury of the Commonwealth of Kentucky at this time forbids the appropriation of sufficient funds to prevent and subvert such vandal-

ism, but which should be done if conditions were different, and

Whereas, for the purpose of calling attention to such destruction and expressing condemnation thereof, Now, Therefore,

Be it resolved by the General Assembly of the Commonwealth of Kentucky:

That the Kentucky State Park Commission, or any State agency that might hereafter succeed it in the performance of its functions, is hereby urged, as soon as it comes into possession of sufficient funds by public donation or private subscription to take such steps as it may be authorized under the law, to acquire the necessary property around and encircling the city of Frankfort, for the purpose of discontinuing and forever preventing such destruction, and for the purpose of preserving such natural scenery unmolested, untouched and unharmed.

Mr. Light offered the following resolution, viz.:

H. Res. 55. Whereas, a large majority of the tobacco growers of Kentucky favor co-operative marketing of tobacco, and

Whereas, said tobacco growers are unable to perfect a co-operative marketing system because of the widespread production of tobacco which reaches beyond the boundaries of the State, and

Whereas, tobacco bears a burdensome tax, which tax is levied indirectly against the producer and constitutes large sums of money going into the Federal Treasury, and

Whereas, the manufacture of tobacco is controlled by a monopoly, which during the present depression and within the last year has increased the price of its manufactured products, decreased the price of the raw product, paid its regular dividends, added to its surplus and has continued and now continues to grow richer and richer, while the producer grows poorer and poorer, therefore:

Be it resolved by the General Assembly of the Commonwealth of Kentucky:

1. That the Congress of the United States be and it is asked and requested to enact a National Cooperative Marketing Law, relating to the production, sale, manufacture and

distribution of tobacco, looking to the protection of the tobacco grower and securing for said grower a fair and just price for his product.

2. That a copy of this resolution be sent to each member of Congress, representing the State of Kentucky, a copy to the Federal Farm Board and a copy to the President of the United States.

Mr. Renick moved that said report be spread upon the Journal of this House.

Said motion was agreed to.

Said report is as follows, viz.:

February 23, 1932.

Honorable E. C. Walker,
Clerk of the House of Representatives,
Frankfort, Ky.

Dear Sir:

Pursuant to the resolution of the Honorable Abram Renick, bearing date of February 17th, 1932, we hand you herewith statement showing the amount of money received

from the sale of motor vehicle lists for the calendar years of 1928 to 1931 inclusive.

We beg to advise that it will be impossible to furnish the exact cost of the preparation of motor vehicle lists for the calendar years of 1928 to 1931 inclusive. The law does not require us to keep a separate record of the cost of this work. We estimate that it has cost approximately \$6,000 for each of the four years above referred to. The character of the work in the Automobile Department is such that it frequently becomes necessary to have employees who are engaged in preparing said lists to do other work in the Automobile Department, other than preparing lists.

We wish to also advise you that said lists are not furnished to the county court clerks, but are furnished to the State Tax Commission Field Men and the County Tax Commissioners.

No employee of the Automobile Department has ever received any compensation for the preparation or sale of lists, except that which has been paid them by the State of Kentucky.

Undoubtedly the State has collected in taxes many thousands of dollars each year in excess of the cost of the lists on account of having furnished the lists to the State Tax Commission Field Men and the County Tax Commissioners. By furnishing the County Tax Commissioners and the State Tax Commission Field Men with said lists, it enabled them to have many thousands of motor vehicle owners to list their motor vehicles for taxation which otherwise would have been lost, had they not been furnished with the lists.

For your information we have collected \$3,057,428.72 for motor vehicle and chauffeurs' licenses for the calendar year of 1932, up to and including February 23rd, 1932.

Yours very truly,

D. Y. COLSON,

Assistant State Tax Commissioner.

Such State Insurance Fund shall be placed under the control of the Treasurer of this Commonwealth, whose duty it shall be to keep such fund invested in obligations of the Commonwealth of Kentucky, Treasury warrants and United States Government Bonds, so that such fund shall yield on its principal sum not less than three (3%) per cent per annum.

On July 1, 1937, and every four years thereafter the Auditor of this Commonwealth shall cause an appraisal to be made of the value of such property intended to be insured by such State Insurance Fund for the purpose of determining the value of such property so insured.

The Auditor of this Commonwealth shall annually cause the State Fire Marshal to visit each institution intended to be insured by such State Insurance Fund as created by this act, for the purpose of inspecting of such properties and making a reasonable recommendation to lessen, correct or remove existing hazards and causes of danger by reasonable recommendations; such Auditor shall cause to be made immediately after such report of such Fire Marshal the reasonable improvements recommended to lessen, remove or correct existing hazards and causes of danger. The cost of the appraisal, inspection and actuarial expense of such property as provided for by this act shall, after the first, be paid out of the State Insurance Fund and the interest accumulation on such funds.

This act shall not apply to any property held by cities, counties, school districts, school boards, except property held by the State Board of Education, University of Kentucky, and the Normal Schools of this State, taxing districts or other municipalities or the property of the State Highway Department.

H. B. 738. An Act relating to revenue and taxation.

Said motion was agreed to.

Thereupon the House took up for consideration from the Orders of the Day, said bill.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. The word "person" is defined for purposes of this Act to include individuals, co-partnerships, business trusts, joint stock companies and corporations.

The word "taxpayer" as used in this Act includes all persons required hereunder to make reports and pay the tax or taxes imposed by this Act.

The words "producing gas" for purposes of this Act shall be deemed to include the severing of natural gas from the soil in Kentucky, the manufacturing in Kentucky of gas commonly and ordinarily used or usable for such heating and illuminating purposes as in natural gas, and/or the first intra-state sale of natural and/or artificial gas imported into this State. When the word "produce" is used in this Act in other grammatical forms, it shall be interpreted in the light of this paragraph.

The words "distributing electric current" are defined for

purposes of this Act to include the selling of electric current in Kentucky not for resale. When the word "distribute" is used in this Act in other grammatical forms, it shall be interpreted in the light of this paragraph.

The term "sale" as used herein shall include all transfers and exchanges for money or other valuable consideration of property and/or services made taxable by this Act. When the word "sell" in any of its grammatical forms is used in this Act, it shall be interpreted in the light of the use of the word "sale" as set out in this paragraph.

§ 2. (a) A State tax is hereby imposed upon the privilege of producing gas in Kentucky at the rate of $\frac{1}{2}$ cents a thousand cubic feet.

(b) A State tax is hereby imposed upon the privilege of distributing electric current in Kentucky at the rate of one-fourth of one cent for each kilowatt hour of electric current.

§ 3. Every person engaged in producing gas and/or distributing electric current shall, on or before the 20th day of the month following the effective date of this Act and on or before the 20th day of each succeeding month, transmit to the State Tax Commission a statement under oath or affirmation, on such forms as the Commission may prescribe, showing for the preceding month the total number of cubic feet of gas produced and/or the total number of kilowatt hours of electric current distributed. Every person required to make such a report shall, at the time the report is made, remit to the State Tax Commission, by check payable to the State Treasurer of Kentucky, the amount of tax shown by the report to be due for the preceding month. Under such regulations as the Tax Commission may prescribe, persons engaged in producing gas and/or distributing electric current may for the purposes of this section report the amount shown by meter readings in said preceding month to have been produced and/or distributed during the interim since the preceding meter reading, which interim shall be approximately one calendar month.

§ 4. The State Tax Commission is hereby charged with the enforcement of this Act and may promulgate such rules and regulations and prescribe such forms as are necessary or desirable for its enforcement. The Tax Commission or any representative appointed by it in writing is hereby authorized to examine the books, records, papers, files, equipment and/or meters of any taxpayer pertaining to the production of gas and/or the distribution of electric current made taxable by this Act; to examine witnesses under oath for the purpose of verifying the accuracy of returns made by taxpayers; and to examine the books, records, papers, files, equipment and/or meters of manufacturers, wholesale dealers and/or carriers (including pipe line companies), for the purpose of verifying reports made under the provisions of this Act or of determining whether or not the Act is being violated.

The State Tax Commission shall have the power to institute legal proceedings for the purpose of ascertaining the amount of tax due under the provisions of this Act and to enforce the collection thereof with penalties thereon.

The State Tax Commission may at or after the commencement of an action to collect the amount of tax due and penalty and interest thereon, as set out herein, have an attachment against the property of the taxpayer or garnishment against his creditor without the execution of a bond upon filing an affidavit showing the nature of the claim, that it is just, the sum which the Tax Commission believes it should recover from the taxpayer, and that the collection of the demand will be endangered by delay in obtaining judgment or a return of no property found.

§ 5. Any information obtained by the State Tax Commission or any representative or agent thereof as a result of the reports, investigations, or verifications herein authorized to be made, shall be confidential; and any person divulging any such information, except upon order of a court of competent jurisdiction or to an official of the Commonwealth

entitled to receive same in his official capacity, shall be fined not exceeding five hundred dollars (\$500).

§ 6. Every taxpayer is hereby required to preserve written records of gas produced and/or of electric current distributed; to keep records of transactions involving gas produced and/or electric current distributed; and to maintain such other records and submit such other reports as the State Tax Commission may require for the enforcement of this act.

§ 7. No suit shall be maintained in any court to restrain or delay the collection or payment of the tax herein imposed on any ground whatever, but the aggrieved taxpayer shall pay the tax as and when due and may at any time within two (2) years from the date of such payment sue the Commonwealth of Kentucky through its agent, the Auditor of Public Accounts, in an action at law in any court, state or federal, otherwise having jurisdiction of the parties and subject matter, for the recovery of the tax so paid, with legal interest thereon from the date of payment. If it is finally determined that said tax or any part thereof was wrongfully collected, for any reason, it shall be the duty of the Auditor of Public Accounts to issue his warrant on the Treasurer of the Commonwealth of Kentucky for the amount of such tax so adjudged to have been wrongfully collected, together with interest thereon; and the Treasurer shall pay the same at once out of the general expenditure fund of the state in preference to other warrants or claims against the Commonwealth.

Separate suits need not be filed for each separate payment made by any taxpayer, but recovery may be had in one suit for all sums theretofore paid, which are not barred by the limitation of two (2) years herein imposed.

§ 8. When gas is produced or electric current distributed under such circumstances that the Constitution and laws of the United States preclude the possibility of imposing the tax, then such tax shall not be imposed and until the privilege exercised comes within the taxing jurisdiction of the Commonwealth of Kentucky.

No appeal shall lie to any court from any conviction under this section,

but a conviction or acquittal in any civil court shall bar a prosecution for the identical offense in any military court. The jurisdiction of general courts martial and summary courts shall not be affected by this law, further than to allow any commissioned officer of the Kentucky National Guard to begin any prosecution he may see fit against any enlisted man in any of the civil courts herein mentioned.

They shall be constituted like and have cognizance of the

same subjects and possess like power, except as to punishments, as similar courts provided for by the regulations and laws governing the Army of the United States, and the proceedings of courts martial of the National Guard shall follow the forms and modes of procedure prescribed for said similar courts in the Regular Army. The sentences of all courts martial shall be carried into effect upon the approval of the convening authority, which shall have power to remit or mitigate any sentence.

§ 74. Courts of inquiry shall consist of from one to three officers of at least equal grade with the officer, or with the senior officer if there be more than one, in regard to whom the court is ordered, and may be ordered by the Governor or by his direction by the Adjutant General, to examine into the nature of any transaction of or accusation or imputation against any officer or soldier, or of any happening, occurrence or condition which may affect the National Guard or its efficiency or welfare. The Court shall, without delay, report to the officer ordering it the evidence adduced, a statement of the facts and, when required, an opinion thereon. Any officer may request a court of inquiry.

§ 75. General courts martial of the National Guard may be convened by order of the Governor, and such courts shall have the power to impose fines not exceeding two hundred dollars (\$200.00); to sentence to confinement not exceeding eight months; to sentence to forfeiture of pay and allowances; to a reprimand; to dismissal or dishonorable discharge from the service; to reduction of non-commissioned officers to the ranks; or any two or more of such punishments may be combined in the sentences imposed by such courts.

§ 76. The commanding officer of each garrison, fort, post, camp or other place, brigade, regiment, detached battalion or other detached command, may appoint special courts martial for his command, but such special courts martial may in any case be appointed by superior authority when by the latter deemed advisable. Special courts martial

shall have power to try any person subject to military law, except a commissioned officer, for any crime or offense made punishable by the military laws of the State of Kentucky or the United States, and such special courts martial shall have the same powers of punishment as do general courts martial, except that fines imposed by such courts shall not exceed one hundred dollars (\$100.00).

§ 77. The commanding officer of each garrison, fort, camp, post or other place, regiment or corps, detached battalion, company, troop, battery, or other detachment of the National Guard, may appoint for such place or command a summary court to consist of one officer, who shall have power to administer oaths and to try the enlisted men of such place or command for breaches of discipline and violations of military laws; and said court may impose fines not exceeding twenty-five (\$25.00) dollars for any single offense; may sentence non-commissioned officers to reduction to the ranks; may sentence to forfeiture of pay and allowances. The proceedings of such court shall be informal and the minutes thereof shall be the same as prescribed for summary courts of the Army of the United States.

§ 78. All courts martial of the National Guard, including summary courts, shall have the power to sentence to confinement in lieu of fines authorized to be imposed; provided, that such sentences of confinement shall not exceed one day for each dollar of fine authorized; provided, further, that no sentence of confinement imposed by a summary court shall be carried into effect until the sentence shall have been approved by an officer of field grade.

§ 79. An accused appearing before a general court martial or summary court shall have the right to be represented by counsel; such counsel may be a commissioned officer of the Kentucky National Guard or any duly licensed lawyer in the State of Kentucky.

§ 80. No sentence of dismissal from the service or dishonorable discharge imposed by a National Guard court

martial shall be executed until approved by the Governor of the State of Kentucky.

§ 81. Presidents of courts martial, courts of inquiry and military boards, and summary court officers shall have power to issue warrants to arrest, or cause to be arrested, accused persons and to bring them before the court for trial whenever such persons shall have disobeyed an order in writing from the convening authority to appear before such court, a copy of the charge or charges having been delivered to the accused with such order, and to issue subpoenas duces tecum, and to enforce by attachment attendance of witnesses, and the production of books and papers. The refusal of a witness to appear in answer to a subpoena, to be sworn or to answer, shall be a contempt of said court and shall be punishable by a fine of not to exceed thirty dollars (\$30.00), which may be imposed by such court or board.

§ 82. All processes and sentences of said courts shall be executed by sheriffs or other civil officers of the State of Kentucky, and it shall be the duty of such officers to execute all such processes and sentences and make return thereof to the officer issuing or imposing the same. Upon failure of any such officer to execute such processes and sentences, they shall be guilty of a misdemeanor and subject to a fine of not exceeding twenty-five dollars (\$25.00) for each offense.

§ 83. Any jail or prison of the State shall be used as a place of imprisonment or detention for any person convicted and sentenced to imprisonment or detention of any person convicted and sentenced to imprisonment by a court martial or summary court, and every jailer or warden shall, upon notification by authority approving the sentence, receive and confine each person so convicted, and shall carry into execution the sentence of such court martial or summary court as if they were the directions and orders of properly constituted civil authorities, ordering the confinement of persons for criminal offense. The cost of imprisonment or detention shall be a proper charge against the county in which the prisoner

is confined, and shall be paid for at the same rate as those prescribed for the detention of other prisoners in the county jail. The authority which has designated the place of confinement may change the place of confinement of any prisoner under the jurisdiction of such authority.

§ 84. The Act of the General Assembly of Kentucky adopted at its 1924 session, creating the Armory Commission of Kentucky and providing armories for the Kentucky National Guard, and which was approved March 15, 1924, and which is now in effect, shall continue in effect and none of its provisions are abridged or abrogated by this law or any of its sections.

§ 90. The Adjutant General shall have the power to require such officers and employees in the Military Department to execute bonds running to the Commonwealth of Kentucky

in such sums as he may think reasonable to properly safeguard the interests of the Commonwealth, considering the responsibilities and the duties which such officers or employees are required to perform.

§ 91. When said bonds given by the Adjutant General, Assistant Adjutant General and other officers and employees in the Military Department are surety company bonds, then the cost of the premiums on said bonds shall be a proper charge against the Military Fund, and said premiums shall be paid out of said fund by vouchers approved by the Adjutant General.

§ 92. Officers of the Kentucky National Guard when ordered on active duty by the Governor shall have the same right to carry arms, and in the same manner, as sheriffs and other peace officers of the Commonwealth are now permitted and authorized by law to do.

§ 93. Organizations, officers and enlisted men of the Kentucky National Guard who are or may be hereafter Federally recognized and authorized to receive Federal pay, arms and equipment shall be in Active Service within the meaning of this Act. Troops of the Kentucky National Guard ordered into service as prescribed in this Act for the enforcement of the law and for the preservation of the peace and security of the rights and lives or property of citizens shall be deemed to be in Active Field Service. Officers employed under orders of the Governor in making tours of inspection, mustering in or mustering out troops making surveys of military property, sitting on courts martial, summary courts, efficiency boards, courts of inquiry or boards of officers, shall be deemed to be in Active Field Service. Orders in every case shall state if pay and travel are allowed and the expenses allowed.

any person lawfully wearing the uniform of the Army, Navy or Marine Corps of the United States because of that uniform, is guilty of a misdemeanor, and shall be punished by a fine of not less than ten dollars (\$10.00) nor more than fifty dollars (\$50.00), or by confinement of not less than ten days nor more than sixty days, or both in the discretion of the court jury.

§ 95. That no red or black flag nor any banner, ensign or sign having upon it any inscription opposed to organized government, or which is sacrilegious, or which may be derogatory to public morals, shall be carried in parade within this State or displayed upon any street or building therein; and it shall be unlawful to display the flag of any anarchistic society upon any public or private building or to carry or display such flag in any street procession or parade within this State. Nothing in this Act shall apply to any pennant of any university, college or other recognized institution of learning.

§ 96. Whoever levies war against this State or the United States or knowingly adheres to the enemies of either, giving them aid and comfort, is guilty of treason against the State of Kentucky and shall be imprisoned in the penitentiary for life.

§ 97. Whenever the National Guard of this State shall be called into active service by the Governor for any purpose, requiring the service of members thereof who may be students in any institution of learning within the State, no teacher, professor, principal or president of any such institution shall discriminate against any such student by reason of such absence, but shall credit him with all academic work accomplished to the date of such absence.

§ 100. Each regiment and separate battalion may have a council of administration, composed of its officers, which shall be charged with the care and control of the fiscal affairs of the organization, may adopt suitable by-laws, effective on the approval of the Governor, and may elect not more than twenty-five honorary members for each company, battery, troop or equivalent unit; said honorary members to be entitled to exemption from jury service, upon their payment annually, or oftener, as the council shall so determine, of a sum not less than fifty dollars (\$50.00); and the money thus obtained shall be for the use of the regimental or battalion fund, to be expended by the commanding officer in such manner as, in his judgment, the interests of the organization require. Each unit not under the control of a regimental or battalion council of administration may also have a council of administration, composed of its officers, and it shall have the same powers as prescribed herein for a regiment and separate battalion.

§ 101. All Acts or parts of acts in conflict herewith are to the extent of such conflicts hereby repealed.

Mr. Light offered the following resolution, viz.:

H. Res. 55. Whereas, a large majority of the tobacco growers of Kentucky favor co-operative marketing of tobacco, and

Whereas, said tobacco growers are unable to perfect a co-operative marketing system because of the widespread production of tobacco which reaches beyond the boundaries of the State, and

Whereas, tobacco bears a burdensome tax, which tax is levied indirectly against the producer and constitutes large sums of money going into the Federal Treasury, and

Whereas, the manufacture of tobacco is controlled by a monopoly, which during the present depression and within the last year has increased the price of its manufactured products, decreased the price of the raw product, paid its regular dividends, added to its surplus and has continued and now continues to grow richer and richer, while the producer grows poorer and poorer, therefore:

Be it resolved by the General Assembly of the Commonwealth of Kentucky:

1. That the Congress of the United States be and it is asked and requested to enact a National Cooperative Marketing Law, relating to the production, sale, manufacture and

distribution of tobacco, looking to the protection of the tobacco grower and securing for said grower a fair and just price for his product.

2. That a copy of this resolution be sent to each member of Congress, representing the State of Kentucky, a copy to the Federal Farm Board and a copy to the President of the United States.

Mr. Renick moved that said report be spread upon the Journal of this House.

Said motion was agreed to.

Said report is as follows, viz.:

February 23, 1932.

Honorable E. C. Walker,
Clerk of the House of Representatives,
Frankfort, Ky.

Dear Sir:

Pursuant to the resolution of the Honorable Abram Renick, bearing date of February 17th, 1932, we hand you herewith statement showing the amount of money received

from the sale of motor vehicle lists for the calendar years of 1928 to 1931 inclusive.

We beg to advise that it will be impossible to furnish the exact cost of the preparation of motor vehicle lists for the calendar years of 1928 to 1931 inclusive. The law does not require us to keep a separate record of the cost of this work. We estimate that it has cost approximately \$6,000 for each of the four years above referred to. The character of the work in the Automobile Department is such that it frequently becomes necessary to have employees who are engaged in preparing said lists to do other work in the Automobile Department, other than preparing lists.

We wish to also advise you that said lists are not furnished to the county court clerks, but are furnished to the State Tax Commission Field Men and the County Tax Commissioners.

No employee of the Automobile Department has ever received any compensation for the preparation or sale of lists, except that which has been paid them by the State of Kentucky.

Undoubtedly the State has collected in taxes many thousands of dollars each year in excess of the cost of the lists on account of having furnished the lists to the State Tax Commission Field Men and the County Tax Commissioners. By furnishing the County Tax Commissioners and the State Tax Commission Field Men with said lists, it enabled them to have many thousands of motor vehicle owners to list their motor vehicles for taxation which otherwise would have been lost, had they not been furnished with the lists.

For your information we have collected \$3,057,428.72 for motor vehicle and chauffeurs' licenses for the calendar year of 1932, up to and including February 23rd, 1932.

Yours very truly,

D. Y. COLSON,

Assistant State Tax Commissioner.

Mr. Lebus moved that the Rules be suspended and that the House take up for immediate consideration, from the Orders of the Day, a bill entitled:

H. B. 619. An Act relating to the creation of a State Public Building Insurance Fund, governing hazards of loss, damage or injury to State Public Buildings by fire, tornado, windstorm or other casualties, occurrences or happenings.

Said motion was agreed to.

Thereupon the House took up for consideration from the Orders of the Day, said bill.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

There is hereby created a State Public Building Insurance Fund, hereinafter referred to as "State Insurance Funds," and to exist from year to year, which shall be used for the purpose of rebuilding, rehabilitating, restoring, repairing and reconstructing any and all state public buildings, structures and contents, owned and belonging to the Commonwealth of Kentucky, injured, damaged, or destroyed by fire, lightning, tornado windstorm or other casualties, occurrences or happenings.

The annual installments to be paid in such State Insurance Fund shall be determined in the following manner:

(a) The Auditor of this Commonwealth shall forthwith cause an accurate appraisal to be made of all of the property of the Commonwealth of Kentucky to be protected by such State Insurance Fund.

(b) The Auditor of this Commonwealth shall forthwith and annually thereafter until the amount of such money to be paid into such State Insurance Fund reaches the sum of

two million (\$2,000,000) dollars, and whenever such State Insurance Fund shall become less than the amount of two million (\$2,000,000) dollars, employ the services of an actuary, which said actuary shall visits such state institutions to be protected by such State Insurance Fund and determine the insurable hazard there existing, and on the basis of that actuarial survey promulgate a schedule of rates of premiums per each one hundred (\$100.00) dollars of property value, applicable to each hazard sought to be covered by such State Insurance Fund, which said rates of premium per one hundred (\$100) dollars of property value shall be arrived at and estimated by the most approved and sound methods employed in sound actuarial practice; such annual installment of premiums to be paid in to such State Insurance Fund shall thereby be computed on the basis of per centum of appraised value of such property sought to be covered by this act, multiplied by such actuarial rates of premiums promulgated by such actuary on each individual property value and hazard to which such individual property is subject within the meaning of this act. Then all of such individual sums so arrived at on each individual property shall be totaled into one sum, and such final sum so obtained shall be the amount of the annual deposit to be paid into such State Insurance Fund.

Whenever such State Insurance Fund equals the sum of Two Million (\$2,000,000) dollars no further annual installment shall be made; provided, however, in case of any depletion of such State Insurance Fund below such sum of Two Million (\$2,000,000) dollars, then such State insurance Fund shall be reimbursed in the same manner in which such State Insurance Fund was originally established. Such State Insurance Fund shall be placed under the control of the Treasurer of this Commonwealth, whose duty it shall be to keep such fund invested in obligations of the Commonwealth of Kentucky, Treasury warrants and United States Government Bonds, so that such fund shall yield on its principal sum not less than three (3%) per cent per annum.

On July 1, 1937, and every four years thereafter the Auditor of this Commonwealth shall cause an appraisal to be made of the value of such property intended to be insured by such State Insurance Fund for the purpose of determining the value of such property so insured.

The Auditor of this Commonwealth shall annually cause the State Fire Marshal to visit each institution intended to be insured by such State Insurance Fund as created by this act, for the purpose of inspecting of such properties and making a reasonable recommendation to lessen, correct or remove existing hazards and causes of danger by reasonable recommendations; such Auditor shall cause to be made immediately after such report of such Fire Marshal the reasonable improvements recommended to lessen, remove or correct existing hazards and causes of danger. The cost of the appraisal, inspection and actuarial expense of such property as provided for by this act shall, after the first, be paid out of the State Insurance Fund and the interest accumulation on such funds.

This act shall not apply to any property held by cities, counties, school districts, school boards, except property held by the State Board of Education, University of Kentucky, and the Normal Schools of this State, taxing districts or other municipalities or the property of the State Highway Department.

To carry out the provisions of this act there is hereby appropriated from the State Treasury the sum of Fifteen Thousand (\$15,000.00) dollars to be paid out on warrant of the Auditor of the Commonwealth.

Whereas, there is much need for economy due to the financial condition of this Commonwealth; and

Whereas, said need is pressing and immediate;

Wherefore, an emergency is hereby declared to exist and this act shall become effective immediately upon its passage and approval.

Mr. Coughlin offered the following amendments to said bill, viz.:

Amend H. B. 619 by inserting in line 29, page 2, in the blank space before the word "percentum" the words "seventy-five."

AFTERNOON SESSION.

The hour of one-thirty o'clock p. m. having arrived, the Speaker resumed the Chair and called the House to order.

Mr. Lebus moved that the Rules be suspended, and that the House take up for immediate consideration from the Orders of the Day, a bill entitled:

H. B. 738. An Act relating to revenue and taxation.

Said motion was agreed to.

Thereupon the House took up for consideration from the Orders of the Day, said bill.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. The word "person" is defined for purposes of this Act to include individuals, co-partnerships, business trusts, joint stock companies and corporations.

The word "taxpayer" as used in this Act includes all persons required hereunder to make reports and pay the tax or taxes imposed by this Act.

The words "producing gas" for purposes of this Act shall be deemed to include the severing of natural gas from the soil in Kentucky, the manufacturing in Kentucky of gas commonly and ordinarily used or usable for such heating and illuminating purposes as in natural gas, and/or the first intra-state sale of natural and/or artificial gas imported into this State. When the word "produce" is used in this Act in other grammatical forms, it shall be interpreted in the light of this paragraph.

The words "distributing electric current" are defined for

purposes of this Act to include the selling of electric current in Kentucky not for resale. When the word "distribute" is used in this Act in other grammatical forms, it shall be interpreted in the light of this paragraph.

The term "sale" as used herein shall include all transfers and exchanges for money or other valuable consideration of property and/or services made taxable by this Act. When the word "sell" in any of its grammatical forms is used in this Act, it shall be interpreted in the light of the use of the word "sale" as set out in this paragraph.

§ 2. (a) A State tax is hereby imposed upon the privilege of producing gas in Kentucky at the rate of $\frac{1}{2}$ cents a thousand cubic feet.

(b) A State tax is hereby imposed upon the privilege of distributing electric current in Kentucky at the rate of one-fourth of one cent for each kilowatt hour of electric current.

§ 3. Every person engaged in producing gas and/or distributing electric current shall, on or before the 20th day of the month following the effective date of this Act and on or before the 20th day of each succeeding month, transmit to the State Tax Commission a statement under oath or affirmation, on such forms as the Commission may prescribe, showing for the preceding month the total number of cubic feet of gas produced and/or the total number of kilowatt hours of electric current distributed. Every person required to make such a report shall, at the time the report is made, remit to the State Tax Commission, by check payable to the State Treasurer of Kentucky, the amount of tax shown by the report to be due for the preceding month. Under such regulations as the Tax Commission may prescribe, persons engaged in producing gas and/or distributing electric current may for the purposes of this section report the amount shown by meter readings in said preceding month to have been produced and/or distributed during the interim since the preceding meter reading, which interim shall be approximately one calendar month.

§ 4. The State Tax Commission is hereby charged with the enforcement of this Act and may promulgate such rules and regulations and prescribe such forms as are necessary or desirable for its enforcement. The Tax Commission or any representative appointed by it in writing is hereby authorized to examine the books, records, papers, files, equipment and/or meters of any taxpayer pertaining to the production of gas and/or the distribution of electric current made taxable by this Act; to examine witnesses under oath for the purpose of verifying the accuracy of returns made by taxpayers; and to examine the books, records, papers, files, equipment and/or meters of manufacturers, wholesale dealers and/or carriers (including pipe line companies), for the purpose of verifying reports made under the provisions of this Act or of determining whether or not the Act is being violated.

The State Tax Commission shall have the power to institute legal proceedings for the purpose of ascertaining the amount of tax due under the provisions of this Act and to enforce the collection thereof with penalties thereon.

The State Tax Commission may at or after the commencement of an action to collect the amount of tax due and penalty and interest thereon, as set out herein, have an attachment against the property of the taxpayer or garnishment against his creditor without the execution of a bond upon filing an affidavit showing the nature of the claim, that it is just, the sum which the Tax Commission believes it should recover from the taxpayer, and that the collection of the demand will be endangered by delay in obtaining judgment or a return of no property found.

§ 5. Any information obtained by the State Tax Commission or any representative or agent thereof as a result of the reports, investigations, or verifications herein authorized to be made, shall be confidential; and any person divulging any such information, except upon order of a court of competent jurisdiction or to an official of the Commonwealth

entitled to receive same in his official capacity, shall be fined not exceeding five hundred dollars (\$500).

§ 6. Every taxpayer is hereby required to preserve written records of gas produced and/or of electric current distributed; to keep records of transactions involving gas produced and/or electric current distributed; and to maintain such other records and submit such other reports as the State Tax Commission may require for the enforcement of this act.

§ 7. No suit shall be maintained in any court to restrain or delay the collection or payment of the tax herein imposed on any ground whatever, but the aggrieved taxpayer shall pay the tax as and when due and may at any time within two (2) years from the date of such payment sue the Commonwealth of Kentucky through its agent, the Auditor of Public Accounts, in an action at law in any court, state or federal, otherwise having jurisdiction of the parties and subject matter, for the recovery of the tax so paid, with legal interest thereon from the date of payment. If it is finally determined that said tax or any part thereof was wrongfully collected, for any reason, it shall be the duty of the Auditor of Public Accounts to issue his warrant on the Treasurer of the Commonwealth of Kentucky for the amount of such tax so adjudged to have been wrongfully collected, together with interest thereon; and the Treasurer shall pay the same at once out of the general expenditure fund of the state in preference to other warrants or claims against the Commonwealth.

Separate suits need not be filed for each separate payment made by any taxpayer, but recovery may be had in one suit for all sums theretofore paid, which are not barred by the limitation of two (2) years herein imposed.

§ 8. When gas is produced or electric current distributed under such circumstances that the Constitution and laws of the United States preclude the possibility of imposing the tax, then such tax shall not be imposed and until the privilege exercised comes within the taxing jurisdiction of the Commonwealth of Kentucky.

§ 9. Any taxpayer who shall fail or refuse to make the returns herein proscribed, or shall refuse to permit the State Tax Commission, its authorized agent or representative to examine the books, records, papers, files, equipment and/or meters of such person pertaining to the business made taxable by this act or who makes an incomplete, false, or fraudulent return hereunder, or who does or attempts to do anything whatever to avoid full disclosure of the amount of business done or to avoid the payment of the whole or any part of the tax or penalties due shall be guilty of a misdemeanor and upon conviction shall be fined not exceeding one thousand dollars (\$1,000), and, in case the offender is an individual, may be imprisoned in the county jail not exceeding six (6) months, or both so fined and imprisoned. Such fine shall be additional to other lines and/or penalties herein provided.

Any taxpayer who shall fail to pay the tax due hereunder in the time specified in this act shall be subject to a penalty equal to twenty per centum (20%) of the amount of tax due and delinquent, and in addition thereto interest at the rate of six per centum (6%) per annum on the original amount of tax due.

§ 10. All revenues derived from the operation of this act shall, as collected and recorded, be covered, through the Auditor of Public Accounts, into the state treasury and credited to the general expenditure fund.

§ 11. The provisions of this act are severable. If any provision, section, or paragraph thereof, or if its application to any class of property or service affected by its operation should be held unconstitutional, such decision regarding the provisions, section, paragraph, or application shall not affect or impair the remainder of the act, it being hereby declared the legislative intent to tax separately the sale of each species of property and/or services contemplated by any of its provisions.

§ 12. All laws or parts of laws in conflict herewith are hereby repealed to the extent of such conflict.

§ 13. Whereas, the present state revenue does not meet the immediate needs for the maintenance and development of the state government and its agencies, and the state's credit is threatened with impairment, and emergency is declared to exist, and this act shall become a law and be effective on the first day of the month following its passage and approval of the Governor.

Section 971-3. When from any cause the judge of any circuit court of continuous session or division thereof, being in attendance, can not properly preside in an action, proceeding or prosecution pending in said court, or if either party shall file with the clerk of the court his affidavit that the judge will not afford him a fair and impartial trial, or will not impartially decide an application for a change of venue, the parties by agreement, may elect one of the members of the bar of said court to hear and try the case, proceeding or application; and if any of the parties to said action, proceeding or prosecution are non-resident defendants, who have not entered their appearance, nor have been summoned, or are infant defendants, the attorney appointed to defend for such non-residents, or the guardian ad litem for such infants, may agree with the other parties to such action, proceeding or prosecution, upon a member of the bar having all the qualifications of a circuit judge, to try such action, proceeding or prosecution. However, if the parties can not agree upon a member of the bar to act as judge, as above stated, or if no judge of said court or division thereof is available, the clerk of the court shall at once certify that fact to the Chief Justice of the Court of Appeals of Kentucky, who shall designate as circuit judge a member of the local or state bar having the qualifications of a circuit judge to try such action,

proceeding or prosecution, and the judge so designated shall have all of the powers of the regular judge of the court over which the member of the bar is designated by the Chief Justice to preside in such action, proceeding or prosecution, and shall receive for his services the compensation hereinafter provided.

§ 2. Section 971-4. When from any cause the judge of any circuit court of other than courts of continuous session fails to attend, or is unable for any reason to hold the court, or if the parties litigant can not agree upon an attorney to act as special judge as provided in Section 971-6 of this act, the clerk of said court shall at once notify the Chief Justice of the Court of Appeals of Kentucky, who shall, if no regular circuit judge is available, designate as circuit judge a member of the local or state bar having the qualifications of a circuit judge, to hold said court during the time when the regular judge shall fail to attend, or shall be, as above stated, unable to preside over said court, and the judge so designated shall hold said court, and shall have all the powers of the regular judge of the court over which he is designated by the Chief Justice. The Chief Justice, in his discretion, in designating, as provided in this section, a special judge to try any action, proceeding or prosecution in which the regular circuit judge can not properly preside or in which either party shall have filed with the clerk of the court his affidavit that the judge will not afford him a fair and impartial trial, or will not impartially decide an application for a change of venue, may designate such special judge to preside over the trial of such action, proceeding or prosecution for such time or purpose as the Chief Justice may designate or may, in his discretion, designate such special judge to preside in the trial of such action, proceeding or prosecution until its final determination on such trial. Special judges designated by the Chief Justice as provided for in this section shall receive for their services the compensation hereinafter provided.

§ 3. Section 971-10. The commissions of regular cir-

cuit judges as special judges, the designation of special judges by the Chief Justice, the reason of such designation, and the fact that the requisite oaths have been taken, must be entered upon the order books of the courts over which such special judges are designated to preside.

All claims for compensation and expenses of attorneys or members of the bar designated as special judges, and as provided for in Sections 971-5 and 971-7 of this act, shall be allowed and paid as provided by the law for the payment of other claims against the Commonwealth, but before such claims shall be allowed by the auditor, the amounts thereof, the number of days' services rendered on the bench, together with a statement of expenses, shall be entered upon the order book of the court over which such special judge is designated to preside, and the same shall be presented to and approved by the Chief Justice of the Court of Appeals.

§ 4. Section 971-12. It shall be the duty of every regular circuit judge to call a special term of his court, when, at the close of any regular term, as many as ten cases remain on the docket of his court undisposed of and not called for trial, nor under submission, and upon the failure of said regular circuit judge so to do, and upon manifestation of that fact by any of the parties litigant in such cases or by counsel of record, by motion and notice in writing to the Chief Justice of the Court of Appeals, the said Chief Justice is hereby empowered, in his discretion, to call a special term of such court, for the purpose of trying such cases or hearing any motion or pleading in relation thereto, and to designate any regular circuit judge, not otherwise engaged, to preside over such special term, or if no regular circuit judge is available, the Chief Justice may designate any member of the bar of this state having all the qualifications of a regular circuit judge to preside over such special term.

The order of the Chief Justice, calling a special term of any circuit court as provided in this section, shall specify the court in which said special term shall be held, when the same

is to commence, and the style of each case to be tried, or in which any motion, pleading, order or judgment is to be filed, made or entered at said special term, but if all the cases on the docket are to be before the court at such special term, a statement to that effect will be sufficient without copying the entire docket in such notice. Whenever a special term shall be ordered by the Chief Justice of the Court of Appeals, as provided in this section, it shall be the duty of the moving party to serve a copy of such order upon all parties litigant affected thereby or upon counsel of record in each case specified in the said order, or in lieu of such notice, the Chief Justice may, in his discretion, direct that notice of such special term shall be given by posting a copy of said order on the door of the courthouse where such special term is to be held, within a reasonable time previous thereto.

§ 5. Section 971-13. In each county of each judicial district, except counties having circuit courts of continuous session, there shall be held each year the number of terms of the circuit court provided for by law, and the term in any district may be extended if the business requires so that it does not interfere with any other term in the district; and whenever it is necessary to transact the business, a special term may be held in any county, either by an order entered of record at the last preceding regular term in the county or by notice signed by the judge and posted at the court house door of the county for ten days before the special term is held. The order or notice shall specify the day when the special term is to commence, and shall give the style of each case to be tried, or in which any motion, order or judgment is to be made or entered at the said special term, and no other case shall be tried, or motion, or order, or judgment entered therein, unless by agreement of parties, but if all the cases on the docket are to be before the court at such special term, a statement to that effect will be sufficient without copying the entire docket in such notice. Grand juries shall be sum-

moned and criminal and penal causes shall be heard at but three terms in each year in any county, to be fixed by order of court, unless in an emergency the court may otherwise direct; and the grand or petit jurors may be summoned for any special term by direction of the judge; provided, however, that whenever, in the opinion of the regular judge of any circuit court, there is such a congestion of the civil or criminal docket in any such court as that it cannot be disposed of by the court at its regular terms, as now provided by law, or at any special term which may be called and held as provided by this section then and in every such case it shall be lawful for the regular circuit judge or such court, by order entered of record, at a regular term of such court, to call a special term of said court to be held while a court is, or may be, in session in the same or some other county in the district.

Every such order calling such special term shall specify the day when the special term of the court shall commence, and the time it shall continue, and shall give the style of each case to be tried, or in which any motion, order or judgment may be made or entered at such special term, and no other case shall be tried, or motion made, or order or judgment entered therein in any case, even by agreement of parties, except upon direction of the Chief Justice as provided by Section 971-12 of this act, but if all the cases on the docket are to be before the court at such special term, a statement to that effect will be sufficient without copying the entire docket in such notice.

The grand jury and petit jury for the trial of criminal or ordinary actions at such special term, shall be drawn at the term at which such special term is called in the manner and form as provided by law for drawing of grand and petit jurors for the regular terms of such court. Whenever the regular judge of such court can not attend at any special term called under this section, then a copy of the order calling such term shall be forwarded by the clerk of such court to the Chief

Justice of the Court of Appeals, whose duty it shall be to designate some other regular circuit judge not then engaged in the trial of cases, or if no regular circuit judge be available at said time, it shall be the duty of the Chief Justice to designate some member of the bar of this state having all the qualifications of a regular circuit judge to hold the special term of such court, provided for in this section. The special judge so designated shall have all the powers of the regular judge of said court.

Resolved that the title thereof be as aforesaid.

Mr. Clark moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said last named motion was agreed to.

Mr. Lebus moved that the Rules be suspended and that a bill entitled:

H. B. 783. An Act relating to revenue and taxation; imposing a tax on the sale of services and/or tangible personal property; providing for enforcement and collection; prescribing penalties for violation; repealing all conflicting laws, and declaring an emergency to exist.

Be taken up for immediate consideration from the Orders of the Day.

Said motion was agreed to.

Thereupon the House took up for consideration from the Orders of the Day, said bill.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. The term "sale", as used herein, shall include all transfers and exchanges of "goods, wares and merchandise", as defined herein, for money or other valuable consideration. Provided, however, that a sale shall not be deemed to be consummated where the sale is made on an open account, until said account is paid in money or other valuable consideration or is secured by note, mortgage or pledge.

"Sales at retail" shall mean and include the sale by a retailer, as defined herein, of goods, wares and merchandise, as defined herein. Provided, however, that sales of goods, wares and merchandise for the purpose of resale or for manufacture or conversion into tangible personal property for the purpose of sale; sales of farm products by the producer thereof; sales of newspapers and the space therein; sales of any species or property or services on which there is now or may hereafter be levied a tax on the sale thereof measured by quantity or price; sales of purely personal services by laborers, salaried employees, officials, and others who receive individual income in the form of fees, such as are customary in the legal, medical, and other professions; sales of transportation of persons or tangible personal property; or sales of coal by the producer in not less than car lots, shall not be deemed "sales at retail."

The term "retailer" as used in this act shall mean and include all persons, firms, associations, co-partnerships, and corporations ordinarily and generally engaged, either in whole or in part, in the sale, barter, trade, or exchange of goods, wares and merchandise for a valuable consideration.

The term "goods, ware and merchandise" as used in this act shall mean and include every species of services or tangible personal property or both.

§ 2. A State tax is hereby imposed on the sale at retail of goods, wares and merchandise in this State by any retailer at the rate of two per centum (2%) of the total amount of gross sales at retail; and the retailer is hereby required to collect from the purchaser and/or account for and pay to the State Tax Commission the tax due the Commonwealth.

§ 3. The State Tax Commission is hereby charged with the enforcement of the provisions of this act and may promulgate such rules and regulations and prescribe such forms as are necessary for the enforcement of this act. All costs and expenses incurred by said Tax Commission in the administration of this act shall be paid out of the funds collected hereunder. The State Tax Commission or any representative appointed by it in writing is hereby authorized to examine the books, records, papers, files and/or equipment of any retailer pertaining to the sales made taxable by this act; to examine witnesses under oath for the purpose of verifying the accuracy of returns made by retailers; and to examine the books, records, files and/or equipment of manufacturers, wholesale dealers, or carriers for the purpose of verifying the accuracy of any reports under this act or determining whether the act is being violated.

The State Tax Commission shall have the power to institute legal proceedings for the purpose of ascertaining the amount of tax due and to enforce the collection thereof with the penalties thereon.

The State Tax Commission may at or after the commencement of an action for the purpose of collecting the amount of tax due and penalty and interest thereon, as set out herein, have an attachment against the property of the retailer, including garnishment, without the execution of a bond, upon filing an affidavit showing the nature of the claim, that it is just, the sum which the State Tax Commission be-

lieves it should recover from the retailer, and that the collection of the demand will be endangered by delay in obtaining judgment or a return of no property found.

Any information obtained by the State Tax Commission or any agent or representative thereof as a result of the reports, investigations, or verifications herein required to be made, shall be confidential, and any person divulging any such information, except upon order of a court of competent jurisdiction or to an official of the Commonwealth entitled to receive same in his official capacity, shall be fined not exceeding five hundred dollars (\$500.00).

§ 4. Every retailer, as defined herein, shall be required to keep written daily records of sales, to preserve invoices of goods received for sale, and to maintain such other records as the State Tax Commission may require to facilitate the enforcement of this act. On or before the fifteenth day of the second month following the effective date of this act, and on or before the fifteenth day of each succeeding month, each such retailer shall mail to or file with the State Tax Commission a report of the total gross sales made during the next preceding month, and shall remit therewith the amount of the tax due.

§ 5. No suits shall be maintained in any court to restrain or delay the collection of payment of the tax herein imposed upon any ground whatever, but the aggrieved taxpayer shall pay the tax as and when due and may at any time within two (2) years from the date of such payment sue the Commonwealth of Kentucky through its agent, the Auditor of Public Accounts, in an action at law in any court, State or Federal, otherwise having jurisdiction of the parties and subject matter, for the recovery of the tax so paid, with legal interest thereon from the date of payment. If it is finally determined that said tax or any part thereof was wrongfully collected, for any reason, it shall be the duty of the Auditor of Public Accounts to issue his warrant on the Treasurer of the Commonwealth of Kentucky for the amount of such tax

so adjudged to have been wrongfully collected, together with interest thereon, and the Treasurer shall pay the same at once, or as soon as funds are available, out of the General Fund of the State, in preference to other warrants or claims against the Commonwealth.

Separate suits need not be filed for each separate payment made by any taxpayer, but recovery may be had in one suit for all sums theretofore paid, which are not barred by limitation of two (2) years herein imposed.

§ 6. This act shall be and remain effective until July first, Nineteen hundred and thirty-four at which time it shall cease to be in force.

§ 7. (b) The word "improvements" shall mean such repairs, replacements, additions and betterments of and to a bridge acquired by purchase as are deemed necessary to place it in a safe and efficient condition for the use of the public, if such repairs, replacements, additions and betterments are ordered prior to the sale of any bonds for the acquisition of such bridge.

(c) The term "cost of bridge" as applied to a bridge to

be acquired by purchase shall include the purchase price, cost of improvements, financing charges, interest during any period of disuse before completion of improvements and for a period of six months after such purchase or such completion, cost of traffic estimates and of engineering and legal expenses, plans, specifications and surveys, estimates of cost and of revenues, other expenses necessary or incident to determining the feasibility or practicability of the enterprise, and such administrative and other expense as may be necessary or incident to the financing herein authorized and the acquisition of the bridge and the placing of the bridge in operation.

(d) The term "cost of bridge" as applied to a bridge to be constructed shall embrace the cost of construction, the cost of all land, property rights, easements and franchises acquired which are deemed necessary for such construction, financing charges, interest during construction and for a period of six months thereafter, cost of traffic estimates and of engineering and legal expenses, plans, specifications, surveys, estimates of cost and of revenues, other expenses necessary or incident to determining the feasibility or practicability of the enterprise, and such administrative and other expense as may be necessary or incident to the financing herein authorized and the construction of the bridge and the placing of the bridge in operation.

(f) The word "owner" shall include all individuals, co-partnerships, associations or corporations having any title or interest in any property, rights, easements or franchises authorized to be acquired by this Act.

§ 3. Bridge Commission. The Mayor or other chief

executive officer of such city, with the approval of the legislative body of the city, may appoint four persons who, with the Mayor or other chief executive officer, ex officio, shall constitute the bridge commission of said city. Each appointee shall be at least twenty-five years of age, and not more than two of such appointees shall be members of the same political party. No officer or employee of said city, whether holding a paid or unpaid office, shall be eligible to hold an appointment on said bridge commission. Such appointees shall be originally appointed for terms of four years. Upon the expiration of such terms, appointments shall be made in like manner except that the terms of the four appointees shall be for one year, two years, three years and four years, respectively, and the successors of such appointees shall be appointed in like manner, each for a period of four years. Any member of the bridge commission shall be eligible for reappointment. Vacancies shall be filled for any unexpired term in the same manner as the original appointment. Each appointee, before entering upon the discharge of his duties, shall qualify by taking, subscribing and filing an oath of office as required by law, and by executing a bond for the faithful performance of his duties, to be approved by the legislative body of such city, in the penal sum of \$5,000, which bond shall be filed with the other official bonds of the city.

§ 4. Organization of commission. Upon the appointment and qualification of the members of the bridge commission as above provided, they together with the Mayor or other chief executive officer, shall constitute a body corporate under the name of (Here insert name of city.) Bridge Commission and shall have power to contract and be contracted with, to sue and be sued in that name and to adopt a seal and alter same at pleasure. Said bridge commission shall elect a chairman and a vice-chairman from its members, and a secretary-treasurer who need not be a member of such commission. The members of the bridge commission, except the Mayor, shall receive such compensation as may be fixed by the legislative

body of the city, either as a salary or as payment for meetings attended, but the maximum compensation of the chairman in any year shall not exceed One Thousand Dollars (\$1,000.00) and of each other member shall not exceed Five Hundred Dollars (\$500.00). The bridge commission shall fix the compensation of the secretary-treasurer in its discretion. The bridge commission shall have power to establish by-laws, rules and regulations for its own government and to make and enter into all contracts or agreements necessary or incidental to the performance of its duties and the execution of its powers under this Act. The bridge commission may employ engineering, architectural and construction experts and inspectors and attorneys, and such other employees as may be necessary in its opinion, and fix their compensation, all of whom shall do such work as the bridge commission shall direct. All salaries and compensation shall be paid solely from funds provided under the provisions of this Act, and no such bridge commission shall proceed to exercise or carry out any authority or powers given it to bind such bridge commission beyond the extent to which money has been or may be provided under the provisions of this Act.

§ 5. Commissioners not interested in contracts. No person while in the employ of, or holding any official relation to any person, firm or corporation selling or furnishing any materials entering into the construction, improvement, repair or maintenance of any such bridge, or who is pecunarily interested therein, as a stockholder or otherwise, shall be a member of any city bridge commission; nor shall any such bridge commission appoint hereunder any person or persons as engineers, superintendents, or foremen sustaining such relation to such person, firm or corporation; nor shall such engineers, superintendents or foremen thereafter become in any way connected with or interested in any such person, firm or corporation while in the employ of such bridge commission; nor shall any of such commissioners, or any engineer, superintendent or foreman appointed by the bridge commis-

sion be a candidate for, or hold any public office other than that of commissioner or be an employee under said bridge commission or be a member of any political committee either while acting as such commissioner or while holding employment thereunder. In case any of such commissioners or servants or employees shall be a candidate for or hold any other public office, or shall be a member of any political committee, his office as commissioner or position as employee, as the case may be, shall be ipso facto vacated.

§ 6. Purchase of Bridges. The bridge commission of any such city is hereby authorized and empowered to acquire by purchase any toll bridge over a navigable stream so as to connect such city with an adjoining state, or any such toll bridge wholly or partly constructed, and/or any franchises, easements, permits and/or contracts for the construction of any such bridge, upon such terms and at such prices as may be considered by such bridge commission to be reasonable and can be agreed upon between it and the owner thereof, title thereto to be taken in the name of such city.

§ 7. Condemnation of Property. The bridge commission of any such city, whenever a reasonable price cannot be agreed upon, is hereby authorized and empowered to acquire by condemnation any land, rights, easements, franchises and other property deemed necessary or convenient for the improvement and/or the efficient operation of any property acquired or constructed under this Act, or for the purpose of constructing any bridge or portion thereof hereunder, or for securing right-of-way leading to any such bridge or its approaches, in the manner provided by law for the appropriation of private property for similar or other public purposes. Such bridge commission is and shall be further empowered to exercise in this Commonwealth and in any adjoining states such powers of eminent domain as may be conferred upon such city or such bridge commission by any act of Congress of the United States now in force or which may hereafter be enacted. Title to any property condemned by the bridge

commission shall be taken in the name of the city. The city shall be under no obligation to accept and pay for any property condemned, or any costs incidental to any condemnation proceedings, and shall in no event pay for the same except from the funds received under the provisions of this Act, and in any condemnation proceedings the court having jurisdiction of the suit, action or proceeding, may make such orders as may be just to the city and to the owners of the property to be condemned, and may require an undertaking or other security to secure such owners against any loss or damage to be sustained by reason of the failure of the city to accept and pay for the property, but such undertaking or security shall impose no liability upon the city, except such as may be paid from the funds received under the provisions of this Act.

§ 8. Improvement of bridges acquired. It shall be the duty of the bridge commission, at or before the time any such bridge shall be acquired by purchase, to determine what repairs, replacements, additions or betterments, if any, will be necessary to place the bridge in safe and sufficient condition for the use of the public, and to cause an estimate of the cost of such improvements to be made and submitted to such bridge commission by an engineer or engineers appointed by it. The bridge commission shall order such improvements before the sale of any bridge revenue bonds hereinafter authorized for the acquisition of such bridge.

§ 9. Construction of Bridges. The bridge commission of any such city is hereby authorized and empowered to construct any toll bridge over a navigable stream, so as to connect such city with an adjoining state. Any such bridge commission is hereby authorized to purchase within this Commonwealth and within any adjoining state, such lands, structures, rights of way, franchises, easements and other interests in lands, including lands under water and riparian rights of any person, railroad or other corporation or municipality or political sub-division, deemed necessary for the construction of any such bridge, upon such terms and at such prices as may

be considered by it to be reasonable and can be agreed upon between it and the owner thereof, title thereto to be taken in the name of the city. No contract or agreement with any contractor or contractors for the construction of any such bridge exceeding in amount the sum of Twenty-five Hundred Dollars (\$2,500.00) shall be made without advertisement for bids, which bids shall be opened publicly and an award made to the best bidder, with power in the Commission to reject any or all bids.

§ 10. Removal of Obstructions. All individuals or corporations having buildings, structures, works, conduits, mains, pipes, tracks, or other physical obstruction in, over or upon the public streets, lanes, alleys, highways or in, under or over the stream over which any bridge is to be constructed, and which shall interfere with or impede the progress of said bridge when in progress of construction or improvement, shall upon reasonable notice from the bridge commission promptly so shift, adjust, accomodate or remove the same at their own cost and expense, except as otherwise provided or required by law, as fully to meet the exigencies occasioning such action and the city legislative body shall have full power by ordinance to prescribe the penalty for such failure. Any public ways or public works damaged or destroyed by reason of the building of such bridge or approaches shall be restored or repaired by the bridge commission and placed in their original condition as near as practicable.

§ 11. Bridge Revenue Bonds. The bridge commission of any such city is hereby authorized to provide by resolution for the issuance of bridge revenue bonds of such city for the purpose of paying the cost as hereinabove defined of any such bridge, which resolution shall recite an estimate of such cost. The principal and interest of such bonds shall be payable solely from the special fund herein provided for such payment. Such bonds shall bear interest at not more than six per centum per annum, payable semi-annually, shall mature at such time or times not more than thirty years from their

date or dates as may be determined by such bridge commission, and may be made redeemable before maturity at the option of the city, to be exercised by such bridge commission, at not more than the par value thereof and a premium of five per cent, and under such terms and conditions as may be fixed by such bridge commission prior to the insurance of the bonds. The principal and interest of such bonds may be made payable in any lawful medium. The bridge commission shall determine the form of the bonds, including the interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest thereof, which may be at any bank or trust company within or without the Commonwealth. Such bonds shall be signed by the chairman of the bridge commission and by the Mayor or other executive officer of the city, under the City's seal, attested by the city clerk or city recorder, and the coupons shall bear the facsimile signatures of said chairman. All bonds issued under this Act shall contain a statement on their face that the city shall not be obligated to pay the same or the interest thereon except from the revenues of such bridge. In case any of the officers whose signatures appear on the bonds or coupons shall cease to be such officers before the delivery of such bonds, such signatures shall nevertheless be valid and sufficient for all purposes the same as if they had remained in office until such delivery. All such bonds shall be, and shall have and are hereby declared to have all the qualities and incidents of negotiable instruments under the negotiable instruments law of the Commonwealth. Such bonds and the income thereof shall be exempt from taxation by the Commonwealth of Kentucky and by the municipalities and political sub-divisions thereof. Such bonds shall be lawful investments of banks, savings banks, trust companies, trustees and of the commissioners of the sinking funds of municipalities and counties, and shall be acceptable as security for the deposit of public moneys. Provision may be made for the registration of any of the bonds in the name

of the owner as to principal alone. The bridge commission issuing such bonds may sell the bonds in such manner and for such price as it may determine to be for the best interests of the city, taking into consideration the financial responsibility of the purchaser and the terms and conditions of the purchase and especially the availability of the proceeds of the bonds when required for payment of the cost of the bridge. Such bonds may be sold at private sale without advertisement. The proceeds of such bonds shall be used solely for the payment of the cost of the bridge and shall be checked out by the chairman or vice-chairman of the bridge commission and the secretary-treasurer thereof and under such restrictions, if any, as such bridge commission may provide. If the proceeds of such bonds, by error of calculation or otherwise, shall be less than the cost of the bridge, additional bonds may in like manner be issued to provide the amount of such deficit and, unless otherwise provided in the trust indenture hereinafter mentioned, shall be deemed to be of the same issue and shall be entitled to payment from the same fund, without preference or priority of the bonds first issued for the same bridge. If the proceeds of bonds issued for any bridge shall exceed the cost thereof, the surplus shall be paid into the fund hereinafter provided for the payment of principal and interest of said bonds. Prior to the preparation of definitive bonds, such bridge commission may under like restrictions issue temporary bonds with or without coupons, exchangeable for definitive bonds upon the issuance of the latter. Such revenue bonds may be issued without a vote of the voters and without any other proceedings or the happening of any other conditions or things than those proceedings, conditions and things which are specified and required by this Act or by the Constitution of the Commonwealth.

§ 12. Lien Upon Bond Proceeds. All moneys received from any bonds issued pursuant to this Act shall be applied solely to the payment of the cost of the bridge or to the appurtenant sinking fund and there shall be and hereby is created

and granted a lien upon such moneys, until so applied, in favor of holders of such bonds or the trustee hereinafter provided for in respect of such bonds.

§ 13. Trust Indenture. In the discretion of the bridge commission each or any issue of such bonds may be secured by a trust indenture by and between the city and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or out side of the Commonwealth, or such corporate trustee and an individual or individuals as co-trustee or co-trustees, but no such trust indenture shall convey or mortgage any bridge or any part thereof. Such trust indenture may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper, not in violation of law, including covenants setting forth the duties of the bridge commission in relation to the acquisition, construction, improvement, maintenance, operation, repair and insurance of the bridge, and the custody, safe-guarding and application of all moneys. The trust indenture may also provide that the bridge shall be acquired, constructed, or partly acquired and partly constructed, and paid for under the supervision and approval of consulting engineers employed or designated by such bridge commission and satisfactory to the original purchasers of the bonds issued therefor, their successors, assigns or nominees, who may be given the right to require that the security given by contractors and by any depository of the proceeds of the bonds or revenues of the bridge or other moneys pertaining thereto be satisfactory to such purchasers, successors, assigns or nominees. Such indenture may set forth the rights and remedies of the bondholders and trustee, restricting the individual right of action of bondholders as is customary in trust indentures securing bonds and debentures of corporations. Except as in this Act otherwise provided, such bridge commission may provide by resolution or by such trust indenture for the payment of the proceeds of the sale of the bonds and the revenues of the bridge to such officer, board

or depository or depositories as it may determine for the custody thereof, and for the method of disbursement thereof, with such safe-guards and restrictions as it may determine. All expenses incurred in carrying out such trust indenture may be treated as a part of the cost of maintenance, operation and repairs of the bridge affected by such indenture.

§ 14. Bridge Tolls. The bridge commission shall fix, charge and collect tolls for transit over each such bridge, and such tolls shall be so fixed and adjusted, in respect of the aggregate of tolls from each bridge for which bonds are issued, as to provide a fund sufficient to pay such bonds and the interest thereon, and to provide an additional fund to pay the cost of maintaining, repairing and operating such bridge, subject, however, to any applicable law or regulation of the United States of America now in force and hereafter to be enacted or made. The tolls from each bridge for which bonds are issued, except such part thereof as may be necessary to pay the cost of maintaining, repairing and operating during any period in which such cost is not otherwise provided for (during which period the tolls may be reduced accordingly) shall be set aside each month in a sinking fund which is hereby pledged to and charged with the payment of (a) the interest upon such bonds as such interest shall fall due and (b) the necessary fiscal agency charges for paying bonds and interest and (c) the payment of such bonds, such sinking fund to be a fund for all such bonds without distinction or priority of one over another. Prior to issuance of the bonds the bridge commission may provide by resolution or by such trust indenture for using the sinking fund or any part thereof in the purchase of any of the outstanding bonds payable therefrom at the market price thereof, but not exceeding the price, if any, at which the same shall at the next interest date be payable or redeemable, and all bonds redeemed or purchased shall forthwith be canceled and shall not again be issued. The moneys in the sinking fund, if not used within a reasonable time for the purchase of bonds for cancellation as above provided,

shall be applied to the redemption of bonds by lot at the redemption price then applicable.

§ 15. Cessation of Tolls. When the particular bonds issued for any bridge and the interest thereon shall have been paid or a sufficient amount shall have been provided for their payment and shall continue to be held for that purpose, the bridge commission shall cease to charge tolls for the use of such bridge and thereafter such bridge shall be free unless tolls shall be required for maintaining, repairing and operating such bridge.

§ 16. Action by Trustee and Bondholders. Any holder of any of such bonds or any of the coupons attached thereto, and the trustee, if any, except to extend the rights herein given may be restricted by resolution passed before the issuance of the bonds or by the trust indenture, may, either at law or in equity, by suit, action, mandamus, or other proceeding protect and enforce any and all rights granted hereunder or under such resolution or trust indenture and may enforce and compel performance of all duties required by this Act or by such resolution or trust indenture to be performed by the city issuing the bonds, or by the bridge commission or any officer thereof, including the fixing, charging and collecting of tolls for transit over such bridge.

§ 17. Contributions. The bridge commission of any such city shall have power to enter into agreements with any adjoining state or any municipality or political subdivision thereof, whereby such adjoining state, municipality or political subdivision may contribute either money or property to the cost of the construction, acquisition or the operation and maintenance of any bridge connecting such city with such other state, municipality or political subdivision. The bridge commission, in addition to the revenues which may be received from the sale of bridge revenue bonds and from the collection of tolls and other bridge revenues derived under the provisions of this Act, shall have authority to receive and accept contributions of either money or property or other

things of value, to be held, used and applied for the purposes in this Act provided.

§ 18. Competing Bridges and Ferries. No bridge for the use of the traveling public connecting this Commonwealth with an adjoining state shall hereafter be constructed and operated by any county, municipality or political subdivision of the Commonwealth, or by any person, co-partnership association or corporation within five miles of any toll bridge for the acquisition or construction of which bridge revenue bonds shall have been authorized under this Act, and no franchise shall hereafter be granted for the operation of a ferry within the same limits, except under a written permit granted by the State Highway Commission. No such permit shall be granted by the State Highway Commission until it shall ascertain by an investigation, including a hearing upon such notice and under such rules as the State Highway Commission may prescribe, that there is an urgent public need for the operation of such bridge or such ferry, and that its operation will not affect the revenues of any such toll bridge so as to impair the security of any bridge revenue bonds issued for the acquisition or construction of such toll bridge.

§ 19. Acquisition of Ferries. The bridge commission of any city authorizing bridge revenue bonds under this Act is hereby authorized to purchase all or any ferries, together with all necessary lands, easements and appurtenances thereto, which shall then be operating across the stream to be spanned by the bridge to be acquired or constructed and shall be within five miles of the location of such bridge. In the event of such purchase, the purchased price thereof shall be deemed a part of the cost of the bridge and shall be paid solely from funds received under the provisions of this Act. The bridge commission may maintain and operate any ferry or ferries so purchased and fix such rates of toll for the use thereof as it may deem proper, or it may in its discretion sell or otherwise dispose of any ferry so purchased, or it may abandon or dismantel the same whenever in its judgment it may seem ex-

pedient so to do. All tolls collected for the use of the ferry or ferries and the proceeds of any sale or disposition of any ferry or ferries shall be used to pay the cost of maintaining, repairing and operating the same, and any residue thereof shall be paid into the sinking fund hereinabove provided for the bonds.

§ 20. General Powers of the Commission. In addition to the powers and duties enumerated in this Act, such bridge commission shall have power to do and perform any and all things and acts necessary or convenient in the construction or acquisition, maintenance and operation of any bridge to be constructed or acquired under the provisions of this Act, and in the financing thereof, to the end that such bridge may become and be operated free of tolls as early as possible and practicable, subject only to the express limitations of this Act and constitutional provisions applicable thereto.

§ 21. Dissolution of Bridge Commission. When all such bonds of any such city and the interest thereon shall have been paid or their payment fully provided for, the bridge commission shall stand dissolved. Thereupon the legislative body of such city shall assume the operation, maintenance and repair of any such bridge, and, unless the cost of operation, maintenance and repair shall be otherwise provided for, shall assume the collection of tolls for the payment of such cost, and shall do any and all other acts and things that may be necessary and convenient for the maintenance of such bridge.

§ 22. Act provides alternative method. This Act shall be deemed to provide an additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplementary and additional to powers conferred by the other laws.

§ 23. Constitutional Construction. The provisions of this Act are severable, and if any of its provisions shall be held unconstitutional by a court of competent jurisdiction the decision of such court shall not affect or impair any of the remaining provisions of this Act.

§ 24. This Act shall take effect from and after its passage and approval by the Governor as provided by law.

Said motion was agreed to.

At the instance of the Committee on Rules, the House took up for consideration from the Orders of the Day a bill entitled:

H. B. 533. An Act to repeal and re-enact Chapter 4 of the Acts of the General Assembly of 1930, and Section 2380b-43, Kentucky Statutes, 1930 Edition, relating to the maintenance of public ditches.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That Chapter 4 of the Acts of the General Assembly of 1930 be and the same is hereby repealed and re-enacted, and as thus re-enacted shall read as follows:

Except as herein otherwise provided, all improvements established or constructed under the provisions of this Act, as well as all public ditches or drains established or constructed under pre-existing laws, shall be under the control and supervision of the drainage commissioner of the county having jurisdiction of the proceeding ordering the establishment and construction thereof. It shall be the duty of said drainage commissioner to keep all such levees, ditches, drains or like public improvements under his charge, open, free from obstruction and in good repair. To accomplish that end, the said board or drainage commissioners is hereby authorized and empowered to employ men and teams, and to lease, rent,

hire or purchase machinery, and employ men to operate same. For the purpose of providing funds to pay the compensation herein provided to the drainage commissioner, his agents, servants and employees, outside of that portion of same which shall be provided for and paid out of the original assessment on any drainage district, as well as to pay the cost and expense of repairing, keeping open and looking after the various public drains, ditches and like improvements under the charge of said commissioner, the lands in each drainage district, which may be established under this act, as well as the lands assessed for each public ditch or system of drainage established under pre-existing laws, shall be and the same are hereby authorized to be assessed, in proportion to the original assessment made against them for the original establishment and construction of such system of drainage.

Provided that where a drainage district has been established, diverting the course of the water, the drainage commissioner may in his discretion, in order to relieve lands taxed and from which water has been diverted, use funds of the district in maintaining the original water course.

Provided, however, that no assessment for such purpose in any one year shall exceed the following amounts, to-wit: In counties where there are seventy-five (75) or more drainage districts, having a cost of construction of one million dollars (\$1,000,000) or more, ten per centum (10%) of the original assessment against said land, and in all other counties not more than two per centum (2%) of the original assessment against said land, unless consent is first obtained in writing from the owners of two-third of the land affected, and in no event shall such assessment exceed ten per centum (10%) of the original assessment.

Provided, that no more than one assessment shall be made in any one year. Provided, further, that no assessment shall be made until the drainage commissioner shall prepare an assessment roll, in duplicate, giving therein the name of the owner or owners of the land to be affected, and the amount

proposed to be assessed against each tract of land. Said assessment roll and the duplicate thereof shall be signed by the drainage commissioner and his secretary, and the original thereof shall be kept on file in the office of the drainage commissioner and the duplicate, aforesaid, shall be filed with the collector of said tax. Assessments made pursuant hereto shall have the same force and effect and be collected by the sheriff, or other collecting officer, shall be kept separate and deposited by him with the treasurer, who shall keep the accounts for each district or system separate, and all warrants drawn shall specify out of which account it shall be paid, and to which it shall be charged.

§ 2. Section 2380b-43, Kentucky Statutes, Carroll's 1930 Edition, be and the same is hereby repealed and re-enacted, so that said section, when so re-enacted, shall read as follows:

To maintain and preserve the ditches, sewers, drains, levees, pumping stations, power plants, or other improvements made pursuant to this act, and to strengthen, repair, and restore the same, when needed, and for the purpose of defraying the current expenses of the district, the board of drainage commissioners may, upon the completion of said improvements, and on the first Monday of December in each year thereafter, levy an assessment upon each tract or parcel of land and other property within the district to be known as a 'maintenance assessment.' Said maintenance assessment shall be apportioned upon the basis of benefits assessed on account of original construction, shall not exceed ten per centum (10%) thereof in any one year, and shall be certified to the sheriff or collector of the revenue of each county in which lands of said district are situated in the same book, in like manner, and at the same time as the annual installment of assessment is certified, but in a separate column under the heading 'maintenance assessment.' Provided, however, that said assessment shall not in any one year exceed two per centum (2%) of the original cost of construction,

unless consent be first obtained in writing from the owners of two-thirds of the lands affected thereby. Said sheriff or collector shall demand and collect the maintenance assessment and make return thereof and shall receive the same compensation therefor and be liable for the same penalties for failure or neglect so to do as is provided herein for the annual installments of assessments. The 'maintenance assessment' shall be due and payable at the same time each year that the other assessments of the district due that year are payable, shall bear the same penalties and shall be collected at the same time, and shall be enforced in the same manner.

§ 3. All laws and parts of laws in conflict herewith are hereby repealed.

Mr. Munford offered the following amendments to said bill, viz.:

Amend H. B. 533 by striking out the following words "and be collected by the sheriff or other collecting officer" in lines 51 and 52 on page 3 of the printed bill and inserting in lieu thereof the following: "as an original assessment and be collected in the same manner."

Said amendments were each agreed to.

writing from the owners of two-thirds of the lands affected thereby'' and in lieu therefor insert the following:

Provided, however, that said assessment shall not in any one year exceed two per centum (2%) of the original cost of construction, unless the Drainage Board shall thirty (30) days before any levy is made, a notice shall be published in a newspaper in the county where the majority of the lands taxed are located give notice of the purpose of the Board to levy such tax stating the per centum of the original cost of the ditch which would be levied and the amount to be realized therefrom, and which notice shall state the time and place in said county where objections may be made to such proposed assessment. Any taxpayer shall have the right of appeal to the county court from a decision of the Board where levies are made in excess of two per centum.

Said amendment was disagreed to.

Ordered that said bill be engrossed and read the third time.

Mr. Handley moved that the vote by which said bill was rejected be reconsidered and that said motion lie on the table.

Said last named motion was agreed to.

By unanimous consent, Mr. Munford of the Committee on Rules to which the same had been referred, reported a bill of the following title:

H. B. 636. An Act to amend Section 1835 Carroll's Kentucky Statutes, 1930 Edition, relating to Clerks of the fiscal court.

With the expression of opinion that said bill ought to pass.

Said bill was read at length the first time and ordered to be placed on the Calendar.

A message was received from the Senate announcing that they had passed a bill which originated in this House, entitled:

H. B. 615. An Act repealing and re-enacting Sections 2711a-1 to 2711a-127 inclusive, and sections 2711a-129 to 2711a-141 inclusive, of Chapter 86 of Baldwin's 1930 Supplement to the Kentucky Statutes, Carroll's 1922 Edition, same being an act providing for the organization, armament, discipline and government of the militia and National Guard of Kentucky.

With the following amendments thereto, viz.:

§ 1. Amend House Bill No. 615 by striking therefrom paragraph 10 on page 5 and 6 of the printed bill and substituting in lieu thereof the following paragraphs, section 10. The Governor shall immediately upon his induction into office appoint an Adjutant General who shall be not less than 30 years of age and shall have had active service in the Kentucky National Guards or in the U. S. Army, Navy, or Marine Corps. The officer so selected as Adjutant General shall by executive order of the Governor be ordered and placed on active duty, and in the event said appointee does not already hold the Commission of Brigadier General of the Kentucky National Guards, he shall be given temporary rank as Brigadier General of the Kentucky National Guard and shall be so commissioned by the Governor. In the event the commission is only temporary, said commission shall automatically be vacated when said appointee shall be relieved from duty as Adjutant General, or at the expiration of the term of the Governor making the appointment. The office of Adjutant General shall not be incompatible with or serve to vacate the commission in the Kentucky National Guard held by the officer appointed Adjutant General at the time of his appointment, nor shall it be incompatible with any office to which he might be promoted, nor shall it interfere with or prevent his attending to the duties of the office held at the time or to which he may be thereafter promoted.

§ 2. Amend House Bill No. 615 by striking out in line two, paragraph 85, page 38 of the printed bill after the word of the words three thousand, six hundred dollars and the figures \$3,600.00 and inserting in lieu thereof, the words three thousand dollars and the figures \$3,000.00.

Mr. Floyd moved that the House do now refuse to concur in said amendments as adopted by the Senate.

Said motion was agreed to.

Thereupon the House refused to concur in the amendments which were adopted by the Senate, to said bill, and

Thereupon the Speaker appointed Messrs. Francis Hill, and D. P. Smith as members constituting a Conference Committee on the part of the House to act with a like Committee on the part of the Senate.

At the instance of the Committee on Rules the House took up for consideration from the Orders of the Day a bill entitled:

§ 3. The Superintendent of Public Instruction shall be the Chairman of the Commission, and it shall on his nomination and recommendation appoint such assistants and incur such expenses as may be necessary; and the Superintendent of Public Instruction shall pay all the expenses of the Commission and its assistants from any funds that may become available for such purpose.

§ 4. The members of the Commission shall receive no pay for their services, but be reimbursed for expenses authorized by the Commission and actually incurred in the discharge of duties imposed by this Act, the evidence of such expenses to be submitted as provided in section 395a-1, Kentucky Statutes.

§ 5. The Commission and the persons working under its direction shall be accorded free access to all public records. Any person who willfully withholds public records or information within his possession or obstructs the work of the Commission in any way shall be guilty of a misdemeanor and upon conviction shall be fined in any sum not less than one hundred (100) dollars.

§ 6. Because of the urgent need of a general revision of the common school laws of Kentucky and of a reorganization of the State's program of public education, an emergency is hereby declared to exist, and this Act shall take effect from and after its passage and approval.

Resolved that the title thereof be as aforesaid.

Mr. Handmaker moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said motion was agreed to.

At the instance of the Committee on Rules, the House took up for consideration from the Orders of the Day, a bill entitled:

H. B. 580. An Act to amend Section 861 of Chapter 144 of the Acts of 1918 as amended by the Acts of 1928; to amend Section 865 of Chapter 144 of the Acts of 1918 as amended by Acts of 1926; and to amend Section 874-b of Chapter 144 of the Acts of 1926; and to amend Section 874-b of Chapter 144 of the Acts of 1918, being respectively Sections 861, 865 and 874-b of Carroll's Kentucky Statutes of 1930 relating to building and loan associations and providing for the purchase of stock and bonds in Federal Home Loan Banks; the borrowing of money therefrom; authorizing the State Banking Commissioner to permit examination of the records of his office concerning building and loan associations by such banks and

providing that building and loan associations of this State may do business with Federal Home Loan Banks.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That Section 861 of Chapter 144 of the Acts of 1918 as amended by the Acts of 1928, being Section 861 of Carroll's Kentucky Statutes of 1930 be and the same is hereby amended by striking out the word "temporary" in the first sentence thereof and by adding to said section the following words: "Provided, that any building association operating under the provisions of this act may borrow of any Federal Home Loan Bank or Banks such amounts as may be permitted by the laws and rules regulating such banks, and for such length of time, and at such rate of interest as may be permitted by such banks, and the associations may pledge and assign its notes and mortgages as security for such loans, and providing further that the debt limit fixed by this section shall not be applicable to loans from such banks and such loans may be in such amounts as may be allowed by the laws and regulations governing or established by such banks," so that the same, when so amended, shall read as follows, to wit:

"The directors shall have power to borrow money for such uses and purposes of the association as the exigencies of the business may demand and as not inconsistent with the objects of the association. To secure such loans the directors may cause the obligations or obligations of the association to be issued thereof bearing interest at not to exceed the then legal rate. No such loan or loans shall have a longer duration than two years, nor shall the aggregate amount of such outstanding indebtedness at any time exceed twenty thousand dollars (\$20,000.00) so long as the total amount of money actually paid in by and standing to the credit of the members on account of their shares shall not be in excess of one hun-

dred thousand dollars (\$100,000.00); and that so long as the amount so paid in shall not exceed one million dollars (\$1,000,000.00), the amount of such indebtedness may be but shall not exceed twenty (20) per cent of the entire amounts so paid in; and that thereafter, the amount of such indebtedness shall at no time be in excess of twenty per cent (20%) of the first million dollars so paid in together with five per cent (5%) of all amounts so paid in in excess of said first million dollars.

Before any money shall be borrowed, the board of directors shall first, by a majority vote of all members, pass and record a resolution to that effect.

Provided, that any building association operating under the provisions of this act may borrow of any Federal Home Loan Bank or Banks such amounts as may be permitted by the laws and rules regulating such banks, and for such length of time, and at such rate of interest as may be permitted by such bank, and the association may pledge and assign its notes and mortgages as security for such loans, and provided further that the debt limit fixed by this section shall not be applicable to loans from such banks and such loans may be in such amounts as may be allowed by the laws and regulations governing or established by such banks."

§ 2. That Section 865 of Chapter 144 of the Acts of 1918 as amended by the Acts of 1926, being Section 865 of Carroll's Kentucky Statutes of 1930 be and the same is hereby amended by adding thereto the following words, to wit: "or in the bonds or debentures of any Home Loan Bank established by Act of Congress. Building and loan associations operating under this act may subscribe for and invest their funds in the stock of any Home Loan Bank established by Act of Congress in such amounts and upon such terms as may be permitted by the laws and regulations governing said bank" so that the same, when so amended, shall read as follows:

"The moneys accumulated after due allowance made for

necessary and proper expenses and for withdrawal of shares, shall at each monthly or weekly meeting be offered to members according to their priority or right to a loan as fixed by the by-laws. Each member, whose application for a loan has been approved, shall be entitled upon giving proper security and complying with by-laws, to receive a loan equal to par value of each share or fractional share held by him or such part as the by-laws allow, provided, however, that the by-laws may restrict the maximum amount of loan to which members may be entitled. If a balance of money remains after the weekly or monthly loans are granted the directors may invest the same in good and safe bonds or in such other securities in which banks are now permitted to invest or in the bonds or debentures of any Home Loan Bank established by Act of Congress. Building and loan associations operating under this act may subscribe for and invest their funds in the stock of any Home Loan Bank established by Act of Congress in such amounts and upon such terms as may be permitted by the laws and regulations governing said bank."

§ 3. That Section 874-b of Chapter 144 of the Acts of 1918, being Section 874-b of Carroll's Kentucky Statutes of 1930, be and the same is hereby amended by adding thereto the following words, to wit: "All reports and information in the hands of the Banking Commissioner of and concerning building and loan associations operating under this act shall be subject to inspection by the Federal Home Loan Bank and Federal Home Loan Bank Board and the duly authorized representative of either of them" so that said section, when so amended, shall read as follows, to wit:

"The affairs of every domestic building and loan association not in liquidation shall be examined by the banking commissioner or by the building and loan clerk or one of the examiners provided in Section 874 of this act as often as shall be deemed necessary, but at least once in every year, and

without any notice to such association, its officers or agents, and such examiner shall have the power and shall make a thorough examination into the condition, workings and affairs generally of such association, and he shall have the power to examine any officer, agent or employee of such association or any other person under oath touching the affairs thereof, and for that purpose shall have the power to administer oath. All books, papers and records and assets of such association shall be subject to his inspection. Said examiner shall make a report of his findings and file the same in the office of the banking commissioner and the said banking commissioner shall furnish a copy of such report to the association examined. Said examiner shall report any violation of law or any unauthorized or unfit practices or any failure to keep and have correct accounts of business of such association, and if he finds that any director has willfully neglected to attend meetings regularly, he shall recommend the discharge of such director.

All reports and information in the hands of the Banking Commissioner of and concerning building and loan associations operating under this act shall be subject to inspection by the Federal Home Loan Bank and Federal Home Loan Bank Board and the duly authorized representative of either of them."

§ 4. Whereas, a bill is now pending in Congress to create Federal Home Loan Banks, and

Whereas, in view of the present financial stringency it is desirable that Kentucky Building and Loan Associations be empowered to obtain the privileges and advantages to be derived from becoming members of said Federal Home Loan Banks;

Now, therefore, an emergency is hereby declared to exist and this act shall become a law upon its approval by the Governor.

Mr. Handmaker offered the following amendments to said bill, viz.:

Amend H. B. 580 by substituting the following as Sections 4 and 5 thereof, viz.:

Section 4. That Section 868 of Acts of 1918 and being Section 868 of Carroll's Kentucky Statutes of 1930 relating to profits and losses of building and loan associations and distribution thereof, be amended by striking therefrom the following words in the last sentence "and losses sustained" and substituting therefor "and all losses sustained except such losses from sale of real estate as may be charged to reserve fund as provided in Section 868-a" so that said Section, as amended, shall read as follows:

"Dividends shall be declared, credited or paid on stock in proportion to the amount paid in on such stock, quarterly, semi-annually or annually, as the by-laws may provide, but no dividends shall be declared, credited or paid by any association, except out of net profits collected, after deducting from the earnings all expenses of operation and all losses sustained, except such losses from sale or real estate as may be charged to reserve fund as provided in Section 868-a."

Section 5. That Section 868-a of Acts of 1918, and being Section 868-a of Carroll's Kentucky Statutes of 1930 and relating to establishment of contingent or reserve fund of building and loan associations be amended by adding thereto the following:

"Provided, further, that any and all losses from sale or real estate may be charged against this fund, and in the event of any such charges, then any and all profits from sale of real estate shall, to the extent of losses charged, be credited to said fund," so that said Section as amended, shall read as follows:

"Every association shall set aside from the gross profits •

at least one percent thereof each year as a sinking fund to provide against contingent losses until the total amount of the fund so set aside shall equal five (5) per cent of the assets of such associations, but this sinking fund shall in no case exceed ten per centum of the assets of the association.

Provided, however, that no association shall be required to reduce its dividend below five per cent for that purpose.

Provided, further, that any and all losses from sale of real estate may be charged against this fund and in the event of any such charges, then any and all profits from sale of real estate shall, to the extent of losses charged, be credited to said fund."

Amend Section 4 of present bill to Section No. 6.

Said amendments were each and severally agreed to.

Ordered that said bill be engrossed and read the third time.

The constitutional provision as to the third reading of said bill at length being dispensed with and the same being engrossed, said bill was read the third time by its title only and passed.

The yeas and nays being taken thereon in accordance with the provisions of the Constitution, were as follows, viz.:

The judge and the sheriff of election, of opposite faith, shall forthwith convey said ballot box, stub book and envelope to the county clerk's office, taking his receipt therefor. Said officers shall see that no person other than themselves has access to, or custody of, said ballot box, and they shall each remain in the presence of the other, until said box and envelope is delivered to the county clerk.

“And any violation by them of any duty imposed upon them by this section with reference to such conveyance shall render them guilty of a misdemeanor and upon conviction thereof they shall be punished by a fine of not less than \$500.00, nor more than \$1,000.00 or imprisonment in the county jail for not less than sixty nor more than one hundred days, or both so fined and imprisoned within the discretion of the jury trying the case. Said officers shall also upon delivery to the county court clerk of the ballot box and the poll books, certificates and the envelope containing the spoiled, mutilated and questioned ballots and the keys to the ballot box, together with the county election seal, each make an affidavit and file it with the county court clerk stating in substance that neither they nor anyone else took from the ballot box while in their custody any ballot or put into it any ballot, or in any manner whatever tampered with the contents of the ballot box and that it and its contents as well as all of the articles delivered by them to the county court clerk were and are in the same identical condition as when taken charge of by them at the closing of the polls, and for any false statement made in such affidavit the one so making it shall be subject to indictment and prosecution for false swearing and punished accordingly.

“The ballot box shall remain locked, from the time it.

leaves the county clerk's office and is returned to said office, and until the county election commissioners shall unlock the same for the purpose of counting the ballots as herein provided.

“The county court clerk, upon receiving said ballot box and envelope from the election officers shall receipt for the same and shall place said ballot box and envelopes in a secure and substantial place and shall keep a sufficient guard over said boxes and envelopes in a careful and painstaking manner until all the ballots have been counted by the election commissioners and those acting with them. Provided, that the chairman of each of the two dominant political parties, shall have the right, and each candidate to be voted for, at any election, may designate one or more persons to assist the county clerk and other guards, to guard the safety of the ballots in said clerk's office. The county clerk shall assist the county election commission, and shall act as its clerk, in the counting and certifying of the ballots and the results of said election, for which he shall receive compensation to be allowed by the fiscal court.

“The county election commission, for the purpose of counting the ballots and issuing certificates and making reports, shall meet on the first week-day after any primary or general election at 10 o'clock on said day in the office of the county clerk, and proceed as speedily as practical, to count the ballots of every precinct in such county and at the finish of each and every precinct they shall announce the result at the door of the clerk's office and they shall fill out the blank in the back of the stub book provided for that purpose and each commissioner shall sign the same on a blank provided for that purpose.

“The election commission is authorized to employ at county expense, such clerical help as said commission may deem necessary to make said count, and shall remain continuously in session, until each and every precinct has been counted and the result ascertained, Sundays and legal holi-

days excepted. There shall be provided by the county clerk a large sheet upon which to tabulate the vote of the whole county, district or municipality, so that each candidate can ascertain the number of votes in each precinct and the total number in the election unit, cast for him. If any ballots are found mutilated, defaced, marked or spoiled or otherwise questionable so that they are of doubtful integrity, the commission shall put all such ballots in a sealed envelope after writing on them and each of them, whether they have been counted, and for whom.

“In any general or primary election held in this state or any county, district or municipality, the same procedure shall prevail and the county election commission shall count and certify the result in the manner herein provided.

“The said election commission shall issue to successful candidates for office or nominations, their certificates of election or nominations in all county, magisterial districts or any subdivision of any county and shall certify the result of the election in their said county, the Secretary of State in all elections or nominations, to be made for state and district officers and nominations.

“In all general elections the governing authority of each political party, and in all primary elections, each group of candidates for an office, may designate to the county election commission, one representative each to meet with the county election commission, as herein provided, and it shall be the duty of said commission to permit said representative to assist in, and witness the count of the ballot in all the precincts of such county and each and all of said commissioners and said representatives, so designated, shall have equal and full opportunity to inspect and count said ballots, and it shall be unlawful for any county election commission or a majority thereof, to refuse to permit said representative to exercise full and free action in witnessing the count of said ballots and any interference with, or refusal, on the part of said election commission, or either of them, to permit said representatives,

either of a political party, or of a candidate, or group of candidates, to have a free and full opportunity to witness and observe the counting of said ballots, shall be guilty of a high misdemeanor, and upon conviction thereof shall be fined not less than one thousand dollars nor more than two thousand dollars or imprisoned in the county jail not less than six months nor more than twelve months in the discretion of the jury.

“The county election commission after fifteen days, provided no contest is filed in any race against any candidate, shall return the keys to said ballot boxes to the county clerk, but if any such contest, either of nominations or elections, has been filed, said commissioners shall hold said keys subject to the orders of the court trying such contest.

“This act, shall govern both the conducting, holding, counting of ballots, and certifying of returns, in general and primary elections.

“Nothing herein contained shall be construed to prevent the election commissioners in counties having cities of the first, second and third class from employing extra tabulators, who under their supervision and responsibility may expedite the counting of the ballots.”

At the instance of the Committee on Rules, the House took up for consideration from the Orders of the Day a bill entitled:

S. B. 35. An Act relating to the fiscal administration of the Commonwealth of Kentucky; providing for interest-bearing negotiable state warrants, and the issual of interest-bearing negotiable treasury notes in anticipation of current reve-

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. The Treasurer of the Commonwealth of Kentucky shall keep in his office a record book to be known as the "Cash Ledger." This record book of the office of the State Treasurer shall be provided for under the provisions of the Uniform Accounting Law of the State.

The State Treasurer shall upon receiving revenues and funds of the Commonwealth of Kentucky distribute the same to the proper budget funds on his Cash Ledger, according to the terms of the State Budget, and as provided by law.

The Cash Ledger of the State Treasurer shall be a duplicate of the budget ledger maintained as a part of the records

of the Auditor of Public Accounts as to budget funds of the state.

All checks drawn by the State Treasurer in payment of state obligations shall be charged on the Cash Ledger by the State Treasurer to the budget fund from which it is payable. The State Treasurer shall keep a daily balance of cash in a column on said Cash Ledger providing for said daily balance.

§ 2. The State Treasurer shall issue his check in payment of all state warrants when presented for payment, if there is sufficient money on hand belonging to the budget fund or funds out of which the state warrants so presented are payable.

If the State Treasurer shall have insufficient funds on hand belonging to any budget fund or funds, out of which state warrants are payable, at the time the state warrant or warrants are presented for payment, the State Treasurer shall fill in the blanks to be provided on said warrant giving said warrant a due date and providing the rate of interest to be paid on the warrant, to wit: "Negotiable and payable at _____, of _____, Kentucky, on or before the _____ day of _____, 19_____, with interest at _____ per cent from the _____ day of _____, 19_____ until paid. Subject to be called for payment on notice."

All interest-bearing warrants shall be negotiable and shall be made payable at the office of the State Treasurer or at a state depository in the discretion of the Treasurer. All interest-bearing state warrants shall bear interest at a rate not in excess of five per cent per annum from date said warrant is made interest-bearing until paid.

The rate of interest upon all interest-bearing warrants shall be fixed by the State Treasurer with the advice and consent of the Budget Commission of the Commonwealth of Kentucky. The interest rate so fixed shall be at the lowest rate possible considering the money market at the time state warrants are made interest-bearing as provided for herein.

The due date of each interest-bearing warrant shall be

fixed by the State Treasurer from his knowledge of when current revenues for the fiscal year may be expected to accrue to produce available funds for the payment of interest-bearing warrants, and if to be paid from funds derived from other sources, from his knowledge when said funds may be expected to be received by the state.

The general policy of the Treasurer's office in conducting the fiscal administration of the Commonwealth of Kentucky shall be determined by the State Treasurer by and with the advice and consent of the Budget Commission of the Commonwealth of Kentucky.

Interest-bearing negotiable warrants issued under the provisions of section two of this Act shall not be issued in excess of ninety per cent of the amount of any budget fund or fund of the state. The State treasurer shall require the Auditor of Public Accounts to certify to him the amounts of budget funds of the state to enable the State Treasurer to comply with the provisions of this section and to keep negotiable interest-bearing warrants issued within the ninety per cent margin of said budget fund or budget funds as required by the provisions of this section.

The State Treasurer shall be liable on his official bond for the amount of any interest-bearing negotiable warrant issued in excess of ninety per cent of the budget fund from which said warrant is payable. An interest-bearing warrant issued in excess of ninety per cent of the budget fund from which it is payable shall be null and void as to the State.

§ 3. The State Treasurer shall keep in his office a record book to be known as the "Interest-Bearing Warrant Record," which shall be provided for under the provisions of the Uniform Accounting Law of the State.

The State Treasurer shall enter all interest-bearing state warrants upon this record before they are delivered to the person entitled thereto, and shall be entered upon said record under a budget heading which shows the budget funds from which the interest-bearing state warrants so entered are pay-

able. The records shall show the date of each interest-bearing state warrant so entered, serial number, amount, and to whom issued, and the due date thereof. As interest-bearing warrants are paid, the State Treasurer shall stamp each warrant paid as provided for in this act, and shall thereupon enter on said record the date of payment of the warrants, to whom paid, together with the amount of interest paid on each warrant.

§ 4. The State Treasurer of the Commonwealth of Kentucky, by and with the advice and consent of the Budget Commission of the Commonwealth of Kentucky, shall have the power and authority to anticipate the revenue of the Commonwealth of Kentucky for the current fiscal year, and to borrow money upon the faith thereof to meet the current expenses of the state as they accrue, or to pay off and discharge interest-bearing state warrants becoming due and payable before sufficient revenues have accrued during the fiscal year to pay off and discharge said interest-bearing state warrants.

If the State Treasurer desires to borrow money under the provisions of this section, he shall with the advice and consent of the Budget Commission of the Commonwealth of Kentucky negotiate said loan or loans on the best terms possible at a rate of interest not in excess of five per cent per annum, and shall execute a note or notes of the Commonwealth of Kentucky as State Treasurer in his official capacity as Treasurer of the Commonwealth of Kentucky. Said notes so executed shall be known as "Treasury Note of the Commonwealth of Kentucky." All notes executed by the State Treasurer under the provisions of this section shall be negotiable and shall be made payable to bearer, and shall show on its face the budget fund out of which it is to be paid. The due date of notes issued under this provision shall be fixed by the State Treasurer from his knowledge as to when funds will be available to pay the notes so issued.

If any of said notes become due and payable before the

State Treasurer has the available funds on hand to pay off said note, or notes, becoming due and payable he shall have the power and authority to renew any note or notes that he is going to be unable to pay at maturity.

The State Treasurer shall have the power and authority to issue notes as provided for under the provisions of this section up to ninety (90%) per cent of the amount of any budget fund or funds provided in the state budget, but shall have no power or authority to issue notes in excess of the amount of ninety per cent of the amount of any budget fund or funds provided in the state budget.

All notes issued by the State Treasurer shall be countersigned by the Auditor of Public Accounts, and shall be charged by the Auditor of Public Accounts on his budget ledger against the budget fund from which the note or notes so issued are payable, in a column on said budget ledger other than the column in which warrants or contracts of the state are charged.

All notes of the State issued under the provisions of this section in excess of ninety per cent of the budget fund from which they are payable shall be null and void as to the state. The signature of the Auditor of Public Accounts and the State Treasurer to said note or notes issued under the provisions of this section shall be construed to be their certificate that the amount of the note or notes issued is within ninety per cent of the budget fund from which said note or notes are payable.

The Auditor of Public Accounts and State Treasurer shall be liable on their official bonds for the amount of any note or notes issued under the provisions of this section in excess of ninety per cent of the amount of the budget fund out of which it is payable, as certified to them by the budget commission.

The Auditor of Public Accounts shall certify the amounts of budget funds to the State Treasurer for the information of the State Treasurer to enable him to issue notes within the

margin of budget fund or funds as required by the provisions of this section.

The State Treasurer shall have no power or authority to discount any note or notes issued under the provisions of this section for less than par and accrued interest.

§ 5. The State Treasurer shall keep in appropriate, well-bound books, to be provided for under the provisions of the Uniform Accounting Law of the State, a true account of all money paid into the State Treasury, by whom, when, how and on what account paid. The Treasurer shall keep the accounts of the sinking fund, common school fund and all other budget funds of the state distinct from each other. The Treasurer shall account separately for each budget fund of the state. The Treasurer shall keep a true account of all sums paid out, when, to whom, and for what paid, and shall also keep an account with each state depository, showing the amount deposited, the date deposited, as well as the amount checked out and the date thereof.

The accounts of the State Treasurer shall be so kept as to exhibit the amount received and disbursed on account of each and every budget fund or other fund of the state, and shall be so kept as to show a daily balance as to each of said funds.

The books, records and blanks required to keep the accounts of the office of the State Treasurer shall be formulated and furnished under the provisions of the Uniform Accounting Law of the State.

§ 6. That Section 4688a-8, Kentucky Statutes, 1930, Carroll's Edition, as amended by Section 9 of Chapter 50 of the Acts of the 1916 session of the General Assembly of the Commonwealth of Kentucky, be and the same is hereby amended and as amended shall read as follows:

All warrants shall be made payable to bearer. All warrants issued shall show on their face the budget fund from which it is payable.

§ 8. The State Treasurer shall date and number his checks on each of the state depositories in the order in which they are issued, beginning the first day of July and ending the thirtieth day of June, inclusive, in each fiscal year. All of said checks when paid and returned to the State Treasurer by the state depository shall be filed and kept as a part of the records of the office of the State Treasurer.

§ 9. That Section 22 of Chapter 170 of the Acts of the 1926 session of the General Assembly of the Commonwealth of Kentucky, and being Section 1922a-22, Kentucky Statutes, 1930, Carroll's Edition, be and the same is hereby amended and as amended shall read as follows:

The Auditor of Public Accounts shall keep as a part of the records of his office a budget ledger. The Auditor of Public Accounts shall, at the beginning of each fiscal year, credit the budget ledger with the funds, set apart and appropriated by the budget appropriation act to each department, board, commission, institution, office, agency, society, association, service or other administrative organization of the state.

All warrants drawn by the Auditor shall designate the budget fund from which same is payable, and before said warrant is delivered to the person entitled thereto the same shall

be entered upon the budget ledger as a charge against the budget fund from which same is payable. The entry shall show the date of the warrant, serial number, to whom issued and the amount thereof.

The Auditor of Public Accounts shall have no power or authority to issue a warrant in excess of any budget fund, and any warrant or warrants so issued shall be illegal, null and void as to the state.

The signature of the Auditor of Public Accounts to a state warrant shall be construed to be his certificate that the amount of said warrant is within the budget fund for the current year out of which it is payable and that the amount of said warrant has been entered on his budget ledger as a charge against said budget fund. The Auditor of Public Accounts shall be liable on his official bond for the amount of any warrant issued by him in excess of the budget fund from which it is payable.

§ 10. That Sections 4688a-1, 4688a-2, 4688a-3, 4688a-4, 4688a-7, 4697, Kentucky Statutes, 1930, Carroll's Edition, be and each of the aforesaid sections are hereby repealed.

Whenever the State Treasurer has sufficient funds on hand in budget funds against which interest-bearing state warrants are outstanding to pay any of said warrants, he shall call for such number of warrants so outstanding by serial number in the order in which said warrants were issued, so that the aggregate amount of warrants so called does not exceed the amount of money on hand available for the purpose of paying the warrants so called for payment. The call of the State Treasurer shall be published for ten consecutive days in a daily newspaper published in this state, and no warrant so called for payment shall bear interest after the expiration of said ten days' publication. Nothing herein, however, shall prevent the payment by the State Treasurer of warrants outstanding if presented for payment without awaiting said publication.

§ 12. The State Treasurer shall make a clear, distinct and intelligible report of all money received and disbursed during each fiscal year ending the thirtieth day of June, which report shall be published annually, and which shall exhibit the receipts and expenditures of each year on account of every department of the public service. The annual report of the State Treasurer shall account for each budget fund of the state separately by showing a detailed statement of receipts and expenditures.

The annual report of the State Treasurer shall give the name of each state depository, together with the amount of money deposited and the rate of interest paid by each of said depositories, and shall account to the state for all interest collected upon state funds deposited in state depositories.

The annual report of the State Treasurer required by this section shall be prepared and transmitted to the General Assembly by the sixth day of each regular session thereof.

§ 13. The provisions of this act shall not be construed to affect the validity of any state warrant or warrants issued and outstanding prior to July first, 1932, or the provisions for the payment of interest thereon under Section 4688a-6, Kentucky Statutes, 1930, Carroll's Edition, as amended by Section 7 of Chapter 50 of the Acts of 1916 session of the General Assembly of the Commonwealth of Kentucky.

§ 14. The State Treasurer shall have no power or authority to pay any warrants issued in a former fiscal year or years out of any budget funds other than the budget fund provided in the budget for the payment of said warrants so outstanding.

WHEREAS, on November 17th, 1931, she went to Harlan County, where for three days and two evenings she reported said hearing; then went to Bell County and for two days and one evening reported the hearings; and

WHEREAS, under the direction and order of said Commissioners Bablitz and Hays, she prepared a transcript of her shorthand notes, and delivered to said Commissioners and to the said Sampson, as Governor of Kentucky, an original and three carbon copies of said transcript, together with a synopsis of the testimony and a summarized report prepared by said Commissioners for the use and benefit of the said Sampson, Governor of Kentucky, twenty-four (24) volumes

Resolved that the title thereof be as aforesaid.

Mr. Lebus moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said motion was agreed to.

At the instance of the Committee on Rules, the House took up for consideration from the Orders of the Day a bill entitled:

H. B. 601. An Act to authorize the Sewer Commission of any city of the first class to sell bonds under par.

Said bill is as follows, viz.:

WHEREAS, because of the unusual economic conditions, the municipal bond market is so depressed that no city within the Commonwealth is able to sell at par any bonds which were authorized at the regular election in 1928 for projecting, constructing and establishing a system or systems of sewers, where the maximum interest rate of such bonds as so voted is five per centum per annum or less; and

WHEREAS, because of the same unusual economic conditions, the costs of labor, supplies and materials required for constructing sewer systems have at all times since July 15, 1930, been at least fifteen per cent less than such costs at the time of said election, and every city which made contracts therefor since July 15, 1930, has thereby effected savings of at least fifteen per cent of the costs which the voters at such election had in contemplation for the work so contracted; and

WHEREAS, by reason of the foregoing, if, in order to provide money to pay contracts which have been made since July 15, 1930, for such sewer construction, bonds so authorized and bearing interest at four and one-half per centum per annum or more and maturing not more than forty years from their date as required by the Constitution of the Commonwealth, shall be sold at a price not less than a price which represents a net interest yield of five and three-eighths per centum per annum, computed in accordance with standard tables of bond values, the amount of the discount on such sale will be less than the savings on such contracts and therefore the completion of the improvements contemplated by the ordinance submitting the question of issuing such bonds to the voters will not be prejudiced by such sale, and neither the amount of bonds necessary for such improvements nor the tax provided by such ordinance to pay such bonds will be increased; and

WHEREAS, no election to change the interest rate of

such bonds or to authorize other bonds can be lawfully held, under the Constitution of the Commonwealth, before the regular election of November 8, 1932, and

WHEREAS, a city of the first class will be compelled to default on or before April 1, 1932, in payment of existing contracts for sewer construction, causing loss of its credit and the serious embarrassment of those contracting with such city in good faith, as well as impairing the ability of such city to make favorable contracts for further sewer construction, unless such city is enabled to sell such bonds under par; now therefore

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That the sewer commission of any city of the first class is hereby empowered to sell at any price not less than a price which represents a net interest yield of five and three-eighths per centum per annum, computed in accordance with standard tables of bond values, such an amount of bonds voted at the regular election in 1928 for projecting, constructing and establishing a system or systems of sewers, and which bear interest at the maximum rate authorized by said election if not less than four and one-half per centum per annum, as may be necessary, with available bond proceeds then on hand, to provide money for the payment of contracts for sewer construction made since July 15, 1930, and prior to the passage of this Act; provided, however, that there may be reserved from such bond proceeds then on hand such amount as may be deemed necessary for other lawful disbursements of the sewer commission until the convening of the next regular term of the General Assembly.

§ 2. An emergency being declared to exist, for reasons set forth in the preambles hereof, and because the public peace, health, safety and credit will be impaired unless this Act shall take effect immediately, this Act shall take effect

immediately from and after its passage and approval by the Governor as provided by law.

WHEREAS, The State Highway Commission of Kentucky constructed a public highway on Project No. 11, in Ohio County, Kentucky, which work was begun in May, 1925, and completed during said year, and whereas said grade and drain of said road was constructed by Ellis & Smeathers, contractors, employed by the State Highway Commission of the Commonwealth of Kentucky, and whereas said contractors acting pursuant to their contract with the State Highway Commission of Kentucky, removed from the old embankment four hundred and ten (410) feet of opening and only put in one hundred and thirty feet (130) in the road as constructed, and whereas said grade and drain was so negligently and carelessly constructed and maintained as not to have a sufficient amount of openings in the levee thereby causing the water accumulating on the north side of the levee to run through these small openings with such force as to injure and damage the lands owned by E. G. Barrass on the south side of said levee and adjacent to it, and whereas by reason of said negligent construction and maintenance the lands owned by E. G. Barrass on the south side of said road and adjacent to it were greatly injured and damaged by the waters concentrating in these small openings with such force as to wash and damage the lands owned by E. G. Barrass over which it was forced to go, thereby changing the natural course of the water and not giving sufficient openings for the water to pass through the levee without injury to the lands on the south side of said levee, and whereas the lands owned by E. G. Barrass have been greatly damaged by the negligent construction and maintenance of said road, rendering his farm practically worthless, and whereas the said E. G. Barrass alleges and claims that said damage and injury to his lands was caused entirely by the negligence and carelessness of the State Highway Commission, its agents and employees in the construction and maintenance of said road, and

WHEREAS, if the said injury and damage to said lands

was caused by the negligence and carelessness of the State Highway Commission, its agents and employees, the said E. G. Barrass should be compensated for his damage and injury to his lands; therefore,

Be it resolved by the General Assembly of the Commonwealth of Kentucky:

That E. G. Barrass be and he is hereby authorized and permitted to sue the Commonwealth of Kentucky and the State Highway Commission of Kentucky, in the Ohio Circuit Court for such damage as he may have sustained, if any, by reason of any injury or damage to his lands through the carelessness or negligence of the State Highway Commission of Kentucky, its agents or employees, and in the event any judgment is recovered by the said Barrass in said suit for damage to his lands, same shall be paid by the Auditor by warrant on the Treasurer.

Either party to said suit may appeal from any judgment which may be rendered in the Ohio Circuit Court to the Court of Appeals, and the case may be settled and adjusted with the consent of the Attorney General of Kentucky in the same way as any other civil case.

Ordered that said resolution be read the third time.

H. B. 180. An Act to make valid and enforceable written provisions or agreements for the arbitration of disputes.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. Validity of Arbitration Agreements. A provision in any written contracts to settle by arbitration a controversy thereafter arising out of such contract, or out of the refusal to perform the whole or any part thereof, or an agreement in writing between two or more persons to submit to arbitration any controversy existing between them at the time of the agreement to submit, shall be valid, irrevocable and enforceable, save upon such grounds as exist at law or in equity for the revocation of any contract; provided, however, that the provisions of this act shall not apply to collective contracts between employers and employees, or between employers and associations of employees, in respect to terms or conditions of employment.

§ 2. Stay of Proceedings Brought in Violation of Arbitration Agreement. If any suit or action or other proceeding be brought upon any issue referable to arbitration under an agreement in writing for such arbitration, the court in which such suit or proceeding is referable to arbitration under such an agreement, shall on application of one of the parties stay the trial of the action until such arbitration has been had in accordance with the terms of the agreement, providing the applicant for the stay is not in default in proceeding with such arbitration.

§ 3. Remedy in Case of Default—Jurisdiction—Petition and Notice—Hearing and Proceedings. The party aggrieved by the alleged failure, neglect or refusal of another to perform under a written agreement for arbitration may petition any circuit court of the county where either party

resides for an order directing that such arbitration proceed in the manner provided for in such agreement. Five days' notice in writing of such application shall be served upon the party in default. Service thereof shall be made in the manner provided by law for the service of a summons. The court shall hear the parties, and upon being satisfied that the making of the agreement for arbitration or the failure to comply therewith is not in issue, the court shall make an order directing the parties to proceed to arbitration in accordance with the terms of the agreement. If the making of the arbitration agreement or the failure, neglect, or refusal to perform the same be in issue, the court shall proceed summarily to the trial thereof. If no jury be demanded the court shall hear and determine such issue. Where such an issue is raised, either party may, on or before the return day of the notice of application, demand a jury trial of such issue, and upon such demand the court shall make an order referring the issue or issues to a jury called and impaneled in the manner provided for the trial of equity actions. If the jury find that no agreement in writing for arbitration was made or that there is no default in proceeding thereunder, the proceedings shall be dismissed. If the jury find that an agreement for arbitration was made in writing and that there is a default in proceeding thereunder, the court shall make an order summarily directing the parties to proceed with the arbitration in accordance with the terms thereof.

§ 4. Appointment of Arbitrators. If, in the agreement, provision be made for a method of naming or appointing an arbitrator or arbitrators or an umpire such method shall be followed; but if no method be provided therein, or if a method be provided and any party thereto shall fail to avail himself of such method, or if for any other reason there shall be a lapse in the naming of an arbitrator or arbitrators or an umpire, or in filling a vacancy, then upon the application of either party to the controversy the circuit court aforesaid or

any circuit court of the county in which the arbitration is appointed to be held shall designate and appoint an arbitrator or arbitrators or umpire, as the case may require, who shall act under the said agreement with the same force and effect as if he or they had been specifically named therein; and, unless otherwise provided in the agreement, the arbitration shall be by a single arbitrator.

Such application shall be served in the manner provided for applications made under section three of this act.

§ 5. Witnesses—Summoning—Compelling Attendance. When more than one arbitrator is agreed to, all the arbitrators shall sit at the hearing of the case unless, by consent in writing, all parties shall agree to proceed with the hearing with a less number. The arbitrators selected either as prescribed in this act or otherwise, or any one of them, may summon in writing any person to attend before them as a witness and in a proper case to bring with him or them any book, record, document, or paper which may be deemed material as evidence in the case. The fees for such attendance shall be the same as the fees of witnesses in the circuit court of this state. Subpoenas shall issue in the name of the arbitrators, and shall be signed by one or more of them, and shall be directed to the said person and shall be served in the same manner as subpoenas to appear and testify before the court. If any person or persons so summoned to testify or to produce evidence shall refuse or neglect to obey said subpoena, upon petition any circuit court in and for the county in which such arbitrators are sitting may compel the attendance of such person or persons before said arbitrator or arbitrators, or punish said person or persons for contempt in the same manner now provided for securing the attendance of witnesses or their punishment for neglect or refusal to attend in the circuit courts of this state.

§ 6. Depositions. Upon petition, approved by the arbitrators, or by a majority of them, any circuit court of the

county in which an arbitration is appointed to be held or in which the arbitrators, are sitting, may direct the taking of depositions to be used as evidence before the arbitrators, in the same manner and for the same reasons as provided by law for the taking of depositions in suits or proceedings pending in the circuit courts of this state.

§ 7. Award. The award shall be in writing and signed by the arbitrators or by a majority of them.

§ 8. Motion to Confirm Award—Jurisdiction—Notice. At any time within one year after the award is made any party to the arbitration may apply to any circuit court of the county in which the award was made, or the county where either party resides, for an order confirming the award, and thereupon the court shall grant such an order unless the award is vacated, modified, or corrected as prescribed in the next two sections. Notice in writing of said application shall be served upon the adverse party or his attorneys five days before the hearing thereof and shall be served in the manner provided by law for the service of a summons.

§ 9. Motions to Vacate Award—Grounds—Rehearing. In either of the following cases any circuit court of the county wherein the award was made, or of the county where either party resides, shall make an order vacating the award upon the application of any party to the arbitration:

(a) Where the award was procured by corruption, fraud or undue means.

(b) Where there was evident partiality or corruption on the part of the arbitrators, or either of them.

(c) Where the arbitrators were guilty of misconduct in refusing to postpone the hearing, upon sufficient cause shown or in refusing to hear evidence pertinent and material to the controversy; or of any other misbehavior by which the rights of any party have been prejudiced.

(d) Where the arbitrators exceeded their powers, or so

imperfectly executed them that a mutual, final and definite award upon the subject matter submitted was not made.

Where an award is vacated and the time within which the agreement required the award to be made has not expired the court may, in its discretion, direct a rehearing by the arbitrators.

§ 10. Motion to Modify or Correct Award—Grounds. In either of the following cases any circuit court of the county wherein the award was made or of the county wherein either party resides shall make an order modifying or correcting the award upon the application of any party to the arbitration.

(a) Where there was an evident material miscalculation of figures or an evident material mistake in the description of any person, thing, or property referred to in the award.

(b) Where the arbitrators have awarded upon a matter not submitted to them unless it is a matter not affecting the merits of the decision upon the matters submitted.

(c) Where the award is imperfect in matter of form not affecting the merits of the controversy.

The order must modify and correct the award, so as to effect the intent thereof and promote justice between the parties.

§ 11. Judgment Upon Award. Upon the granting of an order confirming, modifying or correcting an award, judgment may be entered in conformity therewith in the court wherein the order was granted.

§ 12. Notice of Motions—When Made—Service—Stay of Proceedings. Notice of a motion to vacate, modify, or correct an award shall be served upon the adverse party or his attorney within three months after the award is delivered, in the manner provided by law for service of summons in a civil action. For the purposes of the motion any judge who might make an order to stay the proceedings in an action brought in the same court may make an order, to be served with the

notice of motion, staying the proceedings of the adverse party to enforce the award.

§ 13. Record—Filing—Judgment—Effect — and Enforcement. Any party to a proceeding for an order confirming, modifying or correcting an award shall, at the time such order is filed with the clerk for the entry of judgment thereon, also file the following papers with the clerk:

(a) The agreement, the selection or appointment, if any, of an additional arbitrator or umpire, and each written extension of the time, if any, within which to make the award.

(b) The award.

(c) Each notice, affidavit, or other paper used upon an application to confirm, modify, or correct the award, and a copy of each order of the court upon such an application.

The judgment shall be docketed as if it was rendered in an action.

The judgment so entered shall have the same force and effect, in all respects, as, and be subject to all the provisions of law relating to, a judgment in an action; and it may be enforced as if it had been rendered in an action in the court in, which it is entered.

§ 14. Appeals. An Appeal may be taken from an order confirming, modifying, correcting or vacating an award, or from a judgment entered upon an award, as from a final order or judgment in an action in a circuit court.

§ 15. Public Contracts. It shall be lawful for any officer, board or commission of the State of Kentucky, or of any county, municipality or other subdivision thereof, having authority to enter into contracts for the furnishing of material or labor or the performance of work, or to make any other contract involving money or money value, to provide in such contracts for the settlement by arbitration of any controversies arising thereunder.

§ 16. Title of Act. This act may be referred to as "The Kentucky Arbitration Act."

§ 17. Application. This act shall not apply to contracts made prior to its enactment.

§ 18. Inconsistent Acts Repealed. Section 451, subsections 1 to 3, both inclusive, and subsections 5 to 9 inclusive, of the Civil Code of Practice and Sections 69 to 73, of the Kentucky Statutes, both inclusive, and all other acts or parts of acts in conflict herewith, to the extent of such conflict, are hereby repealed.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That the word "gasoline" as used in this act shall include all liquid fuels, including liquids ordinarily, practically and commercially usable in internal combustion engines for the generation of power, and all distillates of, and condensates from petroleum, natural gas, coal, coal tar, vegetable ferments, and all other products, so usable and sold in this Commonwealth at wholesale, as the words "at wholesale" are defined herein, except kerosene, fuel oil and crude oil as such. A State tax of five (5) cents per gallon is hereby imposed on all gasoline, as defined herein, sold in this Commonwealth at wholesale as the words "at wholesale" are hereinafter defined. No other excise or license tax shall be levied or assessed on gasoline by the State or any county, city, town or other district. The tax hereby provided for shall be paid by the person, firm, association, or corporation so selling gasoline, and shall be paid by said person, firm, association or corporation into the general fund of the State Treasury in the manner and within the time hereinafter specified. The words "at wholesale", as used in this act shall be held and construed to mean and include any and all sales made for the purpose of re-sale or distribution, or for use, and, as well, the gasoline furnished or supplied for distribution within this State whether the distributor be the same person who so furnished the same, his agent or employee, or another person; and also to mean and include any person who shall purchase or obtain gasoline without the State and sell or distribute or use the same within the State. Provided, that nothing herein contained shall be construed as authorizing or requiring the collection of such tax upon any gasoline after the same shall have been already once taxed under the provision of this act, and the words "at wholesale" shall not apply to any gasoline which has been so taxed.

§ 2. All taxes collected under the provisions of this act shall be paid into the State Treasury, and shall be used only for the purpose of the construction, reconstruction, maintenance, and repair of roads, highways, and bridges.

§ 3. (a) Every person, or the treasurer or other proper officer or agent of every association, co-partnership or corporation selling gasoline at wholesale, as defined herein, shall keep and preserve, for a period of two (2) years, an accurate record of all such sales distribution, receipts, and uses of gasoline, together with invoices, bills-of-lading, and other pertinent records and papers as may be required by the State Tax Commission; and shall on or before the last day of each month transmit to the State Tax Commission a statement, under oath or affirmation, on such forms as the State Tax Commission may prescribe, of the total number of gallons of gasoline sold, distributed, or used in each county of the state from their respective place or places of business so registered under the provisions of section seven a (7a) hereof during the preceding calendar month, which gallons are made taxable by this act, and shall accompany said report by a certified or cashier's check, payable to the State Treasurer of Kentucky, for the amount of tax due for such preceding calendar month. It shall be the duty of every person, purchasing gasoline taxable under this act from an "at wholesale" dealer for the purpose of resale, to maintain and keep for a period of one (1) year a record of gasoline received, the amount of tax paid to the dealer as part of the purchase price, together with delivery tickets, invoices, bills-of-lading, and such other records as the State Tax Commission shall require.

(b) Every person, association, co-partnership, or corporation, operating a refinery for the production of gasoline within the State of Kentucky, and selling gasoline for delivery to points within the state of Kentucky, shall collect and pay to the State Treasurer all taxes assessed under this act, on such gasoline. The State Tax Commission, in computing the amount of tax due under this act, shall make an allowance

of one percent for leakage, evaporation, bad debts and collection costs.

(c) Every person, association, co-partnership or corporation, operating a refinery in this state, shall keep and preserve an accurate record of all such sales, distribution, manufacture, and uses of gasoline within the State of Kentucky, and all shipments of gasoline to points outside the state, and shall not later than the tenth day of the month, make a report to the State Tax Commission, of all gasoline shipped to points in the state, and all shipments of gasoline to points outside the state, during the preceding calendar month, giving the date of shipment, car number and initial, net gallons, and the name of the person, firm or corporation to whom shipped.

(d) The State Tax Commission shall allow to every person, association, co-partnership, or corporation operating a refinery in Kentucky for keeping a record of the sale and shipments of gasoline, as provided herein, and for collecting and paying the tax thereon, one per cent of such tax reported and paid.

(e) If any person, association, co-partnership or corporation shall purchase gasoline outside the state of Kentucky, for sale within the state of Kentucky, such purchaser shall, on or before the last day of each month in which such gasoline is received, transmit to the State Tax Commission a statement, under oath or affirmation, on such forms as the State Tax Commission may prescribe, of the total number of gallons of gasoline so purchased and received for sale in Kentucky, during the month next preceding, and shall accompany said report by a certified or cashier's check, payable to the State Treasurer of Kentucky, for the amount of tax due on such gasoline received provided that the State Tax Commission in computing the amount of such tax shall make an allowance of one per cent for leakage, evaporation, bad debts, collection costs, handling and reporting the tax. Provided

that such allowance shall be made only on gasoline purchased in carload quantities.

(f) Every railroad or other transportation company and every other person, firm, association, partnership or corporation transporting gasoline as defined in Section 1 of this act by whatsoever manner from without the state to points within this state, or between points within the state, shall report to the State Tax Commission, on forms prescribed by the Commission, showing the names and address of each person, firm, or corporation to whom deliveries of gasoline have been made, the name and address of the original consignee, if deliveries are made to any other than the original consignee, the name and address of the consignor, the point of origin, the point of delivery, the date of delivery, the number and initials of each car, if shipped by rail, the quantity of each shipment and delivery in gallons, the manner of shipment and delivery, and such other information as the State Tax Commission may require relative to the transportation and delivery of such gasoline. Such reports are to include intra-city switching movements of gasoline in tank cars or otherwise. Such reports shall be made under oath and shall be filed on or before the last day of every month covering all such deliveries made within this state during the preceding calendar month.

(g) The State Tax Commission of the State of Kentucky shall, upon request duly received from the officials to whom are entrusted the enforcement of the gasoline tax laws of any other state, forward to such officials any information which it may have in its possession relative to the manufacture, receipt, sale, use, transportation, and/or shipment by any person of gasoline.

(h) By virtue of the allowance provided herein to "at wholesale" dealers for collecting the tax and remitting the same to State Tax Commission, every "at wholesile" dealer is a trust officer of the State, and failure to remit gasoline tax to the state as provided herein constitutes embezzlement

of state funds, and upon conviction under this section any individual, or partner, or officer, or agent of any association, partnership or corporation shall be guilty of a misdemeanor and shall be fined not exceeding one thousand dollars (\$1,000) or imprisoned in the county jail not exceeding six months, or both so fined and imprisoned, and upon conviction on a second offense under this section, shall be guilty of a felony and shall be imprisoned for not less than one year or more than five years in the state prison.

§ 4. If any such person, association, co-partnership or corporation neglects or refused to make said return, or pay the tax at the time hereinbefore provided, the amount thereof, with an addition of a penalty of twenty per centum thereof, with interest at the rate of six per cent per annum from the date when due until paid, shall be paid on account settled by the State Tax Commission, as other taxes are paid, settled and collected; and, if collected by proceedings in any court, an additional penalty of twenty per centum shall be collected as is authorized to be collected in revenue agents proceedings under section 4263-4 of the Kentucky Statutes.

The said twenty per centum penalty thereon and interest due shall be paid into the State Treasury as part of the tax, and the twenty per centum penalty collected in revenue agents' proceedings shall be distributed as provided in section 4263-4 of the Kentucky Statutes.

§ 5. The State Tax Commission, or any assistant or representative thereof, appointed in writing by it, is hereby authorized to examine the books, records, papers, files and equipment of any person, association, co-partnership or corporation pertaining to the business made taxable by this act, and to that end, shall have the power to examine witnesses under oath to verify the accuracy of any return made under the provisions of this act, or to ascertain whether or not any tax is due by any person, association, co-partnership or corporation under the provisions of this act, and in the collection of said tax, the State Tax Commission shall have

the power to institute legal proceedings for the purpose of ascertaining the amount of tax due and the collection thereof with the penalties thereon, and the State Tax Commission shall be vested with all the powers under the law of the State for the collection of taxes. The State Tax Commission may, at or after the commencement of an action for the purpose of collecting the amount of tax due and penalties and interest due thereon as set out herein have an attachment against the property of the defendant, including garnishees, without the execution of a bond upon the filing of an affidavit showing the nature of the claim, that it is just, the sum which the State Tax Commission believes the plaintiff ought to recover and that the collection of the demand will be endangered by delay in obtaining judgment or a return of no property found. Any information gained by the State Tax Commission, or any assistant, agent or representative thereof, as a result of the reports, investigations or verifications herein required to be made, shall be confidential, and any person divulging such information shall be guilty of a misdemeanor, and, upon conviction, shall be fined not exceeding five hundred dollars (\$500.00); providing, however, that this prohibition shall not extend to information required in prosecutions for making false reports or returns or in the preparation and prosecution of legal proceedings for the collection of any tax due under the provisions of this act, or any prosecutions for any other infraction of the tax laws of this State. If any witness shall fail or refuse to appear at the request of the State Tax Commission, or refuse access to any books, records, files, papers, or equipment, the State Tax Commission shall certify such fact and the name of the witness, or witnesses, so failing and refusing to appear, or refusing access to any books, records, papers, files or equipment to the circuit court of the county having jurisdiction of the matter, and said court shall thereupon issue a summons for the said party to appear at a place designated within the jurisdiction of the court on a day fixed, and give such evidence and open for inspection such books,

records, files and papers as may be required for the purposes of ascertaining whether or not any return so made is true and correct, or whether or not any person, association, co-partnership or corporation has failed or refused to make a true and correct return under the provisions of this law; and the circuit court shall have in any such proceeding all the power of a court of equity in punishing for contempt. In order that the State Tax Commission may have additional means of checking up the accuracy of the reports made, and determining the amount of tax due by any person, association co-partnership or corporation, the records, books, and other documents of common carriers, relative to the transportation of gasoline, are hereby declared to be accessible to the State Tax Commission.

§ 6. Any person, association, co-partnership or corporation, or any officer, director, trustee, or member of any association, co-partnership or corporation, who shall fail, neglect or refuse to make the returns and pay the tax herein prescribed, or shall refuse to permit the State Tax Commission, its assistants, agents or representatives appointed by it in writing, to examine the books, records, papers, files and equipment of such person, association, co-partnership or corporation pertaining to the business made taxable by this act, or who makes any incomplete, false or fraudulent return hereunder, or who does, or attempts to do, anything whatever to avoid a full disclosure of the amount of business done or to avoid payment of the whole or any part of the tax or penalties due, or who shall fail to preserve records of gasoline manufactured, received, used, sold or delivered, as provided in this act, shall be guilty of a misdemeanor, and upon conviction, shall be fined not exceeding one thousand dollars (\$1,000.00), and in the case the offender is an individual, he may be imprisoned in the county jail not exceeding six months, or both so fined and imprisoned. Such penalty shall be in addition to the penalty imposed hereinbefore in section 4 of this act.

§ 7a. On and after 30 days after this act shall go into

effect, it shall be unlawful for any "at wholesale" dealer to receive, use, sell or distribute any gasoline or to engage in the sale of gasoline within this state unless such dealer is the holder of an uncanceled license issued by the State Tax Commission to engage in such business. To procure such license every dealer shall file with the State Tax Commission an application under oath or affirmation and in such form as the State Tax Commission may prescribe, setting forth:

a. The name under which the dealer will transact business within the state of Kentucky;

b. The location, with street number address, of its principal office or place of business within this state; and if such dealer has more than one place of business within the State, the locations of each place of business;

c. The name and complete residence address of the owner or the names and addresses of the partners, if such dealer is a partnership, or the names and addresses of the principal officers, if such dealer is a corporation or association: and if such dealer is a corporation organized under the laws of another state, territory or country, it shall also file with such application a certified copy of the certificate or license issued by the secretary of state of Kentucky showing that such corporation is authorized to transact business in the state of Kentucky. Upon the filing of an application for a license, and concurrently therewith, a bond of the character stipulated and in the amount provided for in Section 7-b of this act, shall be filed with the State Tax Commission. No license shall be issued upon any application unless accompanied by such a bond. In the event that any application for a license certificate to transact business as a dealer in the state of Kentucky shall be filed by any person whose license shall at any time heretofore have been canceled for cause by the State Tax Commission, or in case said State Tax Commission shall be of the opinion that such application is not filed in good faith, or that such application is filed by some person as a subterfuge for the real person in interest whose license or registration

shall theretofore have been canceled for cause by said State Tax Commission, then and in any of said events the State Tax Commission, after a hearing, of which the applicant shall have been given five (5) days' notice in writing and in which said applicant shall have the right to appear in person or by counsel and present testimony, shall have and is hereby given the right and authority to refuse to issue to such person a license certificate to transact business as a dealer in the state of Kentucky. The application in proper form having been accepted for filing, and the bond having been accepted and approved, the State Tax Commission shall issue to such dealer a license certificate to transact business as a dealer in the State of Kentucky, subject to cancellation of such license as provided by law. The license certificate so issued by the State Tax Commission shall not be assignable, and shall be valid only for the dealer in whose name issued, and shall be displayed conspicuously in the principal place of business of said leader in the State of Kentucky. The State Tax Commission shall keep and file all applications and bonds with an alphabetical index thereof, together with a record of all licensed dealers.

(b) Every "at wholesale" dealer shall file with the State Tax Commission a bond in the minimum amount of \$5,000.00 and up to a maximum amount sufficient in the opinion of the State Tax Commission, the financial rating and reputation of the company considered, to insure payment to the State of Kentucky of the amount of tax and any penalties and interest for which the dealer may become liable, on a form to be approved by the State Tax Commission and with a surety company approved by the State Tax Commission as surety thereon, and upon which such dealer shall be the principal obligor and the state of Kentucky shall be the obligee, conditioned upon the prompt filing of true reports and the payment by such dealer to the treasurer of the State of Kentucky of any and all gasoline excise taxes which are now or which hereafter may be levied or imposed by the state of Ken-

tucky together with any and all penalties and/or interest thereon, and generally upon faithful compliance with the provisions of this act. In the event that liability upon the bond thus filed by the dealer with the State Tax Commission shall be discharged or reduced, whether by judgment rendered, payment made or otherwise, or if in the opinion of the State Tax Commission any surety on the bond theretofore given shall have become unsatisfactory or unacceptable, then the State Tax Commission may require the dealer to file a new bond with satisfactory sureties in the same amount, failing which the State Tax Commission shall forthwith cancel the license certificate of said dealer. If such new bond shall be furnished by said dealer as above provided, the State Tax Commission shall cancel and surrender the bond of said dealer for which such new bond shall be substituted. In the event that upon hearing, of which the dealer shall be given five (5) days' notice in writing, the State Tax Commission shall decide that the amount of the existing bond is insufficient to insure payment to the state of Kentucky of the amount of the tax and any penalties and interest for which said dealer is or may at any time become liable, then the dealer shall forthwith, upon the written demand of State Tax Commission file an additional bond in the same manner and form with a surety company thereon approved by the State Tax Commission in any amount determined by the State Tax Commission to be necessary to secure at all times the payment by such dealer to the state of Kentucky of all taxes, penalties, and interest due under the provisions of this act, failing which, the State Tax Commission shall forthwith cancel the license certificate of said dealers. Any surety on any bond furnished by any dealer as above provided shall be released and discharged from any and all liability to the state of Kentucky accruing on such bond after the expiration of sixty (60) days from the date upon which such surety shall have lodged with the State Tax Commission written request to be released and discharged. Provided, however, that such request shall not

operate to relieve, release or discharge such surety from any liability already accrued, or which shall accrue, before the expiration of said sixty-day period. The State Tax Commission shall promptly on receipt of notice of such request notify the dealer who furnished such bond, and, unless, such dealer shall on or before the expiration of such sixty-day period file with the State Tax Commission a new bond with a surety company satisfactory to the State Tax Commission in the amount and form hereinbefore in this section provided, the State Tax Commission shall forthwith cancel the license of said dealer. If such new bond shall be furnished by said dealer as above provided, the State Tax Commission shall cancel and surrender the bond of said dealer for which such new bond shall be substituted.

(c) If an "at wholesale" dealer shall at any time file a false monthly report of the data or information required by this act, or shall fail, refuse or neglect to file the monthly report required by this act, or to pay the full amount of the tax as required by this act, the State Tax Commission may forthwith cancel the license of said dealer and notify such dealer in writing of such cancellation by registered mail to the last known address of such dealer appearing on the files of the State Tax Commission. The State Tax Commission is hereby given the power to cancel any license hitherto or hereafter issued to any dealer, such cancellation to become effective sixty (60) days from the date of receipt of the written request of such dealer for cancellation thereof or said State Tax Commission may cancel the license of any dealer upon investigation and sixty (60) days' notice mailed to the last known address of such dealer if it shall ascertain and find that the person to whom such license has been issued is no longer engaged in the receipt, use or sale of gasoline as a dealer, and has not been so engaged for the period of six (6) months prior to such cancellation. But no such license shall be canceled upon the request of any dealer until and unless the dealer shall, prior to the date of such cancellation,

have paid to the state of Kentucky all excise taxes payable under the laws of the state of Kentucky together with any and all penalties and fines accruing by reason of any failure on the part of said dealer to make accurate reports as required by this act and/or to pay said taxes and/or penalties. In the event that the license of any dealer shall be canceled by the State Tax Commission as hereinbefore in this section provided, and in the further event that said dealer shall have paid to the state of Kentucky upon the receipt, sale or use of gasoline, together with any and all penalties accruing by reason of any failure on the part of said dealer to make accurate reports or to pay said tax and/or penalties, then the State Tax Commission shall cancel and surrender the bond theretofore filed by said dealer.

(d) Any person who shall engage in business in the state of Kentucky as an "at wholesale" dealer without being the holder of an uncanceled license to engage in such business, or who shall, without such license, sell any gasoline upon which the tax herein imposed shall not have been reported and paid, shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than one hundred dollars (\$100.00) nor more than one thousand dollars (\$1,000.00) or by imprisonment in the county jail for not less than thirty (30) days nor more than one (1) year or both so fined and imprisoned in the discretion of the jury. Each day or part thereof during which any person shall engage in business as a dealer without being the holder of an uncanceled license shall constitute a separate offense within the meaning of this section.

§ 8. It shall be the duty of the State Tax Commission to administer and enforce the provisions of this act, and it is hereby authorized and empowered to prescribe all blanks, forms and reports necessary to carry out the provisions of this act. It shall certify each month to the State Auditor the total amount of tax paid or collected from each wholesale dealer during the preceding month under the provisions of

this act, and shall accompany said certification with the checks received by it for the payment of said tax and penalties, if any. All costs and expenses incurred by the State Tax Commission in the administration of this act shall be paid out of the funds collected hereunder.

§ 9. No suit shall be maintained in any court to restrain or delay the collection or payment of the tax herein imposed upon any ground whatever, but the aggrieved taxpayer shall pay the taxes when due, and if paid under protest may at any time within two years from the date of such payment sue the Auditor of Public Accounts in an action of law to recover the tax so paid, with legal interest thereon from the date of payment. If it is legally determined that said tax, or any part thereof, was wrongfully collected for any reason, it shall be the duty of the Auditor of Public Accounts then in office to issue his warrant on the Treasurer of the Commonwealth of Kentucky for the amount of such tax so adjudged to have been wrongfully collected, together with interest thereon, and the Treasurer shall pay same out of the public road fund of the State. A separate suit need not be filed for such separate payment made by any taxpayer, and a recovery may be had in one suit for as many illegal payments as may have been made, and which are not barred by the limitation of two years herein imposed.

§ 10. The provisions of this act are severable and if any of its provisions or any penalty provided by this act shall be held unconstitutional, such provision or the particular penalty held to be invalid shall not affect or impair the remainder of the act or such part of the penalties as are not held to be invalid and the decisions of the courts shall not affect or impair the remaining provisions of this act or any of the other penalties anywhere in this act provided. It is hereby declared as a legislative intent that this act would have been adopted had any unconstitutional provisions or such invalid penalties not been included therein.

§ 11. All of the provisions of Chapter one hundred and

twenty-seven of the Acts of the General Assembly of nineteen hundred and twenty-eight and of Chapter one hundred and fifty-three of the Acts of the General Assembly of nineteen hundred and thirty are hereby repealed and this Act is enacted in lieu of all said acts and shall constitute and embrace all of the law of this Commonwealth imposing any tax on gasoline.

§ 12. Whereas, the new provisions of this act are designed to strengthen the administrative features of the gasoline tax law and to prevent the evasion of the tax which may be practiced under the present law due to the fact that no penalties are provided for failure to execute bond, an emergency is declared to exist and this act shall take effect from and after its passage and approval by the Governor.

AFTERNOON SESSION

The hour of one o'clock p. m. having arrived, the Speaker resumed the Chair and called the House to order.

At the instance of the Committee on Rules, the House

took up for consideration from the Orders of the Day a bill entitled:

H. B. 569. An Act providing for the reopening, or reorganization, or consolidation of closed Title Companies or Real Estate Title Insurance Companies in this Commonwealth.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Whenever any Title Company or Real Estate Title Insurance Company, organized under the laws of the Commonwealth of Kentucky, shall, for any reason, close its doors or suspend business, or shall have heretofore closed its door or suspended its business if not less than twenty-five (25) persons, firms or corporation, owning or holding real estate mortgage bonds or notes of the par value of at least one hundred dollars (\$100.00) each, issued or guaranteed by any such companies, shall notify the Insurance Commissioner of the Commonwealth of Kentucky, in writing, that they desire to attempt to reorganize or otherwise reopen or consolidate any of such companies with some other company in the same or kindred line of business, a reasonable time shall be given by the Insurance Commissioner for the development and perfection of such plans for reorganizing, reopening or consolidating such company, during which time liquidation of such company shall not proceed, except to such extent as may, in the opinion of the Insurance Commissioner, be necessary for the preservation of the assets of said company; and thereupon the holders or owners of such bonds or notes or other securities together with any and all other holders or owners of such bonds, notes, or other securities so issued or guaranteed by said company, shall proceed without delay with a definite plan for the reopening, reorganization, or con-

solidation of such company, which plan if and when accepted in writing by the holders or owners of at least seventy-five per cent (75%) in amount of all real estate mortgage bonds or notes or other securities issued or guaranteed by such company and, then in force, shall become binding and effective, and all other holders or owners of such real estate mortgage bonds, lien notes, or other securities above described shall be held subject to and bound by the terms of such plan for the reorganization, reopening or consolidation of such company to the same extent as if they had joined in the acceptance and execution thereof, and upon and after the reorganization, reopening, or consolidation of said company, as the case may be, said company may, with the approval of the Insurance Commissioner, resume business under said plan of reorganization, reopening or consolidation.

If at any time in the opinion of the Insurance Commissioner, reasonable progress is not being made in the attempted reorganization, reopening or consolidation of such company, the Insurance Commissioner may revoke his approval theretofore given and shall proceed with the liquidation of said company according to law. Nothing in this act, however, shall prevent the Insurance Commissioner from again approving or consenting to an attempted reorganization, reopening, or consolidation of such company, if further application therefor shall, in his opinion, be made in accordance with this act.

Because of the stress now existing in business generally and for the assistance of the companies coming within the purview of this Act and recently closed, an emergency is declared to exist and this Act is declared to become effective upon its passage and approval.
